✓ JAMES C. SMITH, Ph. B.

Graduate, Howard College, Alabama; sometime teacher in public schools of Alabama; Ph. B., University of Chicago, 1903; Head of Department of Mathematics, Evansville High School, Evansville, Ind., 1903-07; graduate work in University of Chicago; in present position since 1907.

*Professor of Mathematics*

- ✓ **M. C. GORDON, M.S.** . . . . . *Associate Professor of Mathematics*  
 Graduate, Pennsylvania State Normal School, Indiana, 1885; principal public schools, West Newton, Pa., 1885-86; graduate with degree of M. S., Pennsylvania State Normal School, Indiana, 1888; principal public schools, Irwin, Pa., 1888-92; special student University of Pennsylvania, 1894; in present position since 1892.
- EDNA S. WINTERS, A.B.** . . . . . *Assistant in Mathematics* ✓  
 Graduate, 1905, post-graduate 1906, Masten Park High School, Buffalo, N. Y.; graduate, Vassar College, 1910; in present position since 1910.
- ✓ **J. P. WILEY** . . . . . *Assistant in Mathematics*  
 Graduate, Pennsylvania State Normal School, Indiana, 1888; principal Delmont Public Schools, 1888-91; principal Connellsville High School, 1891-92; Principal Irwin Public Schools, 1892-97; principal and Supt., Connellsville Public Schools, 1897-07; principal Irwin Public Schools, 1907-11; in present position since 1911.
- BEN R. BEISEL, B.S.** . . . . . *Assistant in Mathematics*  
 Graduate Pitts-burgh Central High School, 1909; B. S., Allegheny College, 1911; special student, Bethany College Summer School, 1915; laboratory instructor in Physics, Allegheny College, 1913-14; teacher of Mathematics High School, Clearfield, Pa., 1914-15; instructor in Mathematics Bethany College, summer school, 1915; in present position since 1915.
- STEPHEN K. PERRY, B.S.** . . . . . *Assistant in Mathematics*  
 Graduate, Maynard (Mass.) High School, 1909; graduate of Dartmouth College, Hanover, N. H., 1913; student, Harvard Summer School, 1912; undergraduate assistant in History, Dartmouth, 1913; instructor at Vermont Academy, Saxtons River, T., 1913-15; in present position since 1915.
- ALICE LILI LOEWENSTEIN, Ph.D.,**  
*Professor of Modern Languages*  
 Graduate, Lyceum, Berlin, 1896; University of Lausanne, 1898; tutor St. Petersburg and Bucarest, 1900-1905; Ph.D., University Berlin, 1906; principal of Delta College Preparatory School, Greenville, Miss., 1909-1912; post-graduate University of Chicago, summer, 1910; supervisor and instructor of Modern Languages, High School, Gloversville, N. Y., 1912-1914; manager of (Vassar) German summer school, summer 1913; in present position since 1914.
- ✓ **MARIANNE F. BAUMBACH** . . . . . *Assistant in German*  
 Student several years in Hamburg and Kiel, Germany; special student Waynesburg College, 1908-10; sometime private teacher of German, Pitts-burgh, Pa.; student one summer session in Cornell University, in present position since 1912.
- MATTIE DURELL BODINE, A.B.** . . . . . *Professor of Latin* ✓  
 Graduate, State Normal School, Mansfield, Pa., in Regular Normal (Three-year) and College Preparatory Courses, also Course in Expression; teacher in High School, Wilcox, Pa., and at Mansfield, Pa.; student, one summer session in Chautauqua, two summer sessions in Cornell University; A.B., Cornell; one term graduate work in Cornell; in present position since 1911.
- FLORENCE K. CRAFTS, A.B.** . . . . . *Assistant in Latin*  
 Student three years at Bradford Academy; graduate, High School, Ann Arbor, Michigan, 1899; graduate, Smith College, 1904; head of Department of Latin, Normal School, Lexington, Kentucky; head of Department of English, Avon High School, Avon, N. Y.; instructor Latin and Greek, Western Pennsylvania Classical and Scientific Institute, Mt. Pleasant, Pa.; in present position since 1912.
- JOHN JAMES, A.B.** . . . . . *Professor of Physics*  
 Student several years in Illinois State Normal University; student three years in Northwestern University, Evanston, Ill.; A. B., University of Michigan; teacher in secondary schools; graduate student, University of Michigan; sometime electrician, Naval Observatory, Washington, D. C.; student two years in University of Halle, Prussia; one year in Sorbonne, Paris; sometime instructor in Mathematics, University of Michigan; sometime professor of Mathematics, Epworth University, Oklahoma City; sometime acting-director of Morrison Observatory, Glasgow, Mo.; in present position since 1907.
- MABELLE C. DAME, A.B.** . . . . . *Teacher of Chemistry*  
 Graduate, Robinson Seminary, Exeter, N. H.; A.B., special distinction in Chemistry, Radcliffe College; instructor in science, High School, Conway, Mass.; principal, Grammar School, South Chelmsford, Mass.; student, Lowell State Normal School, Lowell, Mass. (course in methods); instructor in Mathematics, Classical and High School, Salem, Mass.
- RALPH L. TALBOT, B.S.** . . . . . *Professor of Natural Science*  
 Graduate of High School, Martins Ferry, Ohio; student Ohio State University, Columbus, Ohio; B.S., Bucknell University, Lewisburg, Pa.; in present position since 1913.
- C. M. MACCONNELL, A.B.** . . . . . *Assistant Natural Science*  
 Graduate Franklin High School, Franklin, Pa., 1910; post-graduate, 1910-11; student Grove City College, 1911-12; graduate Allegheny College, A. B., 1915; in present position since 1915.
- ✓ **ELIZABETH KNIGHT EYRE,**  
*Director of Physical Training for Women*  
 Graduate of New Haven Normal School of Gymnastics; sometime teacher of private classes in gymnastics in New Haven Normal School of Gymnastics; sometime Director of Athletics in New Haven Normal School of Gymnastics; sometime teacher of Gymnastics in State Normal Training School, New Haven, Conn.; sometime teacher of Gymnastics in New Haven, Conn., public schools; sometime Basketball coach in New Haven, Conn., public schools; in present position since 1909.
- MRS. LORA W. VANDEGRIFF** . . . . . *Teacher of Dancing*  
 Student under Maurice, Chalif and Wilson, and at Castle House. Instructor of private classes in New York City, Asbury Park, Corinthian Yacht Club of Cape May, and Cricket, Elks, and Beacon Light Clubs, of Altoona; teacher of dancing, The Birmingham School for Girls, and Cresson Academy for Girls; in present position since 1914.
- ✓ **JEAN R. McELHANEY, Ph.D.** . . . . . *Instructor in Drawing*  
 Graduate, High School, Indiana, Pa., 1883; graduate, Pennsylvania State Normal School, Indiana, 1885; primary teacher, Uniontown, Pa., 1885-90; teacher in public schools, Indiana, Pa., 1890-96; teacher in public schools, Johnstown, Pa., 1896-1903; student, Prang Normal Art Classes, Boston, 1900-01; graduate student Pratt Institute, Brooklyn, 1903-04; teacher of Art, Johnstown High School, 1904-06; in present position since 1906.

VEDA RUTH BLOOMER

*Assistant in Drawing* ✓ LELLA FARLIN

*Singing and Voice Culture*

Graduate High School, West Rutland, Vt.; graduate General Art Course, Pratt Institute, Brooklyn, N. Y.; graduate Course in Normal Art and Manual Training, Pratt Institute, Brooklyn, N. Y.; in present position since 1915

Graduate in Voice of the University School of Music, Ann Arbor, Michigan; post-graduate vocal work under Wm. A. Howland, Head of Vocal Department, University School of Music; Frederic Bristol, New York; Ellison Van Hoose, New York; Frederick Pease, Michigan State Normal; Theory and Ear Training under Prof. Heaco, Oberlin Conservatory, Oberlin, Ohio; Musical History, post-graduate work in Harmony under Prof. A. A. Stanley, University of Michigan, also Director of University School of Music; Piano under Prof. Henry C. Post, Grand Rapids, Mich.; Chas. Morrison, Director, Oberlin Conservatory, Oberlin, Ohio; Alberto Jonas, formerly of University School of Music, now of Berlin, Germany; for seven years Assistant Teacher in Vocal Department, University School of Music, Ann Arbor, Mich.; in present position since 1909.

✓ ELBERT M. JACKSON,

*Instructor in Agriculture and Manual Training*

Graduate of High School, Pulaski, N. Y., 1896; graduate of State Normal and Training School, Oswego, N. Y., 1902; sometime teacher in public schools of New York; teacher of Manual Training, Orange Park Normal School, Florida, 1902-04; teacher of Manual Training, Utica, N. Y., 1905-08; teacher of Manual Training, Concord, N. H., 1908-09; special work in Cornell and Columbia Universities; in present position since 1909.

Graduate, Pennsylvania State Normal School, Mansfield; graduate, School of Commerce, Elmira, N. Y.; teacher and principal four years in Pennsylvania public schools; principal Tyler's Business College, Worcester, Mass.; assistant in Mathematics, Pennsylvania State Normal School, 1911-15; in present position since 1915.

MRS. R. J. SAWYER . . . . . *Piano*

Student, New York College of Music, 1886-7; pupil of Albert Ross Parsons, New York, 1892-5; teacher, piano-forte, Norwalk, Conn., 1886-95; Carlisle, Pa., 1895-1900; in present position since 1900

✓ FRANK J. MYERS

*Teacher of Stenography*

Graduate of Cambria County, Pennsylvania, public schools, 1906; sometime teacher in Cambria County public schools; graduate of Commercial Department of Pennsylvania State Normal School, Indiana, 1909; in present position since 1911.

MARY ST. CLAIR KING . . . . . *Piano and Organ*

Graduate, Piano Course, 1910; graduate, Organ Course, 1911, of Indiana Normal Conservatory of Music. Accompanist, Indiana State Normal School, 1911-14; student University School of Music, Ann Arbor, Mich.; in present position since 1914

✓ FLORENCE GERTRUDE PLANTE,

*Assistant in Commercial Department and Secretary to Miss Leonard.*

Graduate, High School, Oil City, Pa.; graduate Commercial Teachers' Training Course, Indiana State Normal School, 1913; in present position since 1912.

ORLEY SEE . . . . . *Instructor in Violin and History of Music*

Graduate of Doane Academy, Granville, Ohio; three years student in Denison University, Granville, Ohio; student of violin three years, with Arthur Judson, now of New York; one year with Franc Zeigler, Columbus, Ohio; one year with Sol Marcossou, Cleveland, Ohio; one year with Emil Heerman, Concert Master, Cincinnati Orchestra; one season with Prof. Hugon Heerman, late of Berlin, now of Geneva, Switzerland; pupil of Theodore Spiering, Berlin and New York; taught in Newark, Ohio; two years head of violin department and theory, State Normal School, Warrensburg, Mo.; two years head Violin Department, Conservatory Denison University, Granville, Ohio; member of Cincinnati Symphony Orchestra, 1910-11; member Assembly Orchestra, Chautauqua, N. Y., since 1909; in present position since 1913.

REXFORD D. COLBURN, Mus. B.,

*Director Music Conservatory*

Graduate, College of Fine Arts, Syracuse University, 1913; post-graduate, 1913-14; head Music Department, Jamestown College, Jamestown, N. D., 1914-15; in present position since 1915.

- MATULDA BARTAK-MCMANUS** . . . . . *Voice and Italian*  
 Graduate, University School of Music, Ann Arbor, Mich.; William A. Howland, vocal teacher; two years under Wm. L. Whitney, Boston; special study under Maurice Devries, head of vocal department, Chicago Musical College; one year in Florence, Italy, with Sig. Luigi Vannucini, teacher of the "Italian Bel Canto"; special coaching in opera with Renato Brogi; one year in vocal study in Berlin, Germany, under Alexander Heinemann and George Fergusson; special coaching in "German Lieder" under Edward Behm; graduate in Public School Music, New England Conservatory, Boston; course in Dramatic Art under Sig. Frangoli, stage director of the Pergola Opera House, Florence, Italy; piano under Mrs. Minnie Davis Sherrill, University School of Music, Ann Arbor, Mich.; Albert Devoto, New England Conservatory, Boston, Alberto Caiati, Florence, Italy; Edoardo Sacerdote, Chicago Musical College; teacher in private studio, Traverse City, Mich.; in present position since 1912.
- MRS. ORLEY SEE** . . . . . *Piano*  
 Graduate of Dorne Academy, Granville, Ohio; student in piano and theory, three years, Denison Conservatory, Granville, Ohio; student in piano and theory, one year, in Baptist College, Lexington, Mo.; taught in Browning, Mo.; and Newark, Ohio; in present position since 1913.
- ORCA A. REINECKE** . . . . . *Piano*  
 Student in Pittsburgh High School; graduate of Pennsylvania State Normal School, Indiana, regular course, 1909; Supervisor's course of music, 1910; Piano course, 1911; student at the University School of Music, Ann Arbor, Michigan, during the summer of 1910; in present position since 1911.
- MARY O. WRIGHT** . . . . . *Instructor Public School Music*  
 Graduate, Kindergarten Training School, Columbus, Ohio, 1913; certificate in public school music, New School of Methods, Chicago, 1907; University of Wooster, 1912; supervisor's diploma, Cornell University, 1915; pupil in voice of Cecil Fanning and Maud Wentz McDonald; teacher of kindergarten, Franklin County Children's Home, Columbus, Ohio, 1904-06; head of voice department, Muskingum College, New Concord, Ohio, 1906; director of music and entertainments, State Institution for Feeble Minded, Columbus, Ohio, 1908-12; supervisor of public school music, Marion, Ohio, 1912-15; in present position since 1915.
- WM. F. SMITH** . . . . . *Head Athletic Coach*  
 Student, Mansfield, Pa., State Normal School, 1904-06; graduate, Pennsylvania State Normal School, Indiana, Pa., 1908; Member football and basketball squad, Mansfield Normal, 1904; Varsity football, Indiana, 1906-07; Assistant football coach and graduate manager athletics, Indiana, 1908-13; Basketball coach, Indiana, 1913-14; in present position since 1914.
- EDWIN K. WOOD, D.D.S.** . . . . . *Assistant Football Coach*  
 Member of Pennsylvania State College baseball and football teams, 1898-99; Picked for end on All-American team; Member Philadelphia professional and Latrobe professional football teams, 1903-07; Head Coach, Pennsylvania State Normal School, Indiana, Pa., football and baseball teams, 1908-09; Graduate Medico-Chirurgical College, 1903; in present position since 1914.
- ARAMINTA M. McLANE** . . . . . *Librarian*  
 Graduate, High School, East Liverpool, Ohio; teacher in public schools, East Liverpool, Ohio; librarian, public library, East Liverpool, Ohio; student, Pennsylvania State Normal, Indiana; student, Michigan University Library School, Ann Arbor, Mich., summer 1910; in present position since 1907.
- ALICE M. WEST** . . . . . *Assistant Librarian*  
 Graduate, Johnstown High School, 1913; two summers' work as Assistant Librarian, at Cambria Library, Johnstown; in present position since 1914.
- JENNIE M. ACKERMAN** . . . . . *Supervisor of the Model School*  
 Graduate, State Normal School, New Paltz, N. Y.; teacher in public schools, Red Bank, N. Y.; in High School; principal of model school, State Normal School, East Stroudsburg, Pa.; student, Columbia University, summer; critic-teacher, State Normal School, Indiana, Pa., 1902-4; in present position since 1904.
- HOPE STEWART, Pd.B.** . . . . . *Critic Teacher*  
 Graduate, Pennsylvania State Normal School, Indiana; teacher in public schools, Indiana, Pa.; student, Clark University, summer; student, School of Pedagogy, Chautauqua, N. Y., summer 1903; student, Teachers' College, Columbia University, 1914; teaching in State Normal School, Indiana, Pa., 1899-1906; in present position since 1906.
- MALVINA GARMAN RIDDLE, Pd.B.** . . . . . *Critic Teacher*  
 Graduate, State Normal, Indiana, Pa., 1882; teacher in public schools, Greensburg, Pa., 1883-5; teacher in public schools, Indiana, Pa., 1893-6; student, summer school, Chautauqua, N. Y., 1891 and 1898; in present position since 1896.
- AMY GRAY** . . . . . *Critic Teacher*  
 Graduate, State Normal School, Jamaica, N. Y., 1902; student, summer school, Chautauqua, N. Y., 1903; student, summer school, New York University, 1909; student, New York University, School of Pedagogy, 1909-10; teacher in public schools, Babylon and Hicksville, N. Y.; assistant principal, public schools, Hicksville, N. Y., 1906-11; principal, 1911-12; in present position since 1912.
- AGGIE LAYTON SULIS** . . . . . *Critic Teacher*  
 Graduate, High School, Milton, Mass.; Digby Academy, Digby, Nova Scotia; Provincial Normal School, Truro, Nova Scotia; special course, Winnipeg Normal, Winnipeg, Manitoba; student, Cornell University summer school; teacher in public schools of Nova Scotia, Manitoba and Massachusetts; in present position since 1913.
- CHARLOTTE W. STUCHUL, A.B.** . . . . . *Critic Teacher*  
 Graduate, Pennsylvania State Normal School, Indiana; student, Cornell University Summer School; graduate, Wilson College; in present position since 1914.
- MARIA A. DAVIS** . . . . . *Steward*  
**J. A. H. LONGWILL**, *Superintendent of Buildings and Grounds*  
**JACOB F. REHM** . . . . . *Head Chef*  
**FRANK KAUTH** . . . . . *Head Baker*  
**ELIZABETH WILLIAMS** . . . . . *Head Waitress*  
**MAURICE HILE** . . . . . *Director of Laundry*  
**DAVID FLEMING** . . . . . *Chief Engineer*  
**J. S. GRIFFITH** . . . . . *Engineer and Electrician*

## ADMINISTRATIVE ORGANIZATION

### Officers of the Faculty

*Principal:* JAMES E. AMENT.  
*Preceptress:* JANE E. LEONARD.  
*Preceptor:* WILLIAM J. JACK.  
*Director of Musical Conservatory:* REXFORD D. COLBURN.  
*Director of Art Instruction:* JEAN R. McELHANEY.  
*Principal of the Business School:* JOHN E. SMITH.  
*Supervisor of the Training School:* JENNIE M. ACKERMAN.  
*Librarian:* ARAMINTA M. McLANE.  
*Secretary to the Principal:* MAYES ROBINSON.  
*Registrar:* ALVA E. KINSLEY.  
*Manager of the Book Department:* WM. F. SMITH.

### Standing Committees of the Faculty

(The first person named is chairman of that committee)

*ATHLETICS:* Dr. Wm. J. Jack, Mr. Wm. F. Smith, Miss Eyre, Mr. John Smith and Mr. Talbot.  
*CLASSIFICATION:* Mr. James C. Smith.  
*For Music:* Mr. Colburn.  
*For Art:* Miss McElhaney.  
*For Commercial Subjects:* Mr. Myers.

*For Freshmen and Below:* Miss Smith, Mr. Jackson, Miss Sprows, Miss Bodine, Miss Wallace, Miss Hunt, Miss Noble and Miss B. Hunt.  
*For Sophomores:* Mr. Wiley, Miss Winters, Miss Greedee, Mr. Speicher and Mr. Perry.  
*For Juniors:* Mr. John Smith, Mr. Talbot, Mr. Colcord, Mr. McConnell and Mr. Beisel.  
*For Seniors:* Miss Ackerman, Miss Gray and Miss Sulis.  
**COMMENCEMENT:** Mr. M. C. Gordon, Mr. J. C. Smith, Mrs. Riddle, Miss Ackerman, Dr. Jack, Miss Eyre, Miss Sprows, Mr. John E. Smith, Miss Leonard, Miss Stewart and Mr. Talbot.  
**DINING-ROOM:** Mr. J. C. Smith, Mrs. Riddle, Mr. Jackson and Mr. See.  
**LECTURE COURSE:** Miss Jane E. Leonard, Mr. Colburn, Mr. Gordon, Miss Smith, Miss Hunt, Mr. Jackson and Mr. Myers.  
**LITERARY SOCIETIES:** Mr. John James, Miss Smith, Mr. Talbot, Mr. Wiley, Mrs. Riddle, Mr. Gordon and Miss Sprows.  
**PROGRAM:** Dr. Wm. J. Jack, Mr. James, Mr. J. C. Smith.  
**RECOMMENDATIONS AND POSITIONS:** Miss Jennie M. Ackerman, Miss Leonard, Mr. Kinsley, Mr. Colburn and Mr. Gordon.  
**RELIGIOUS WORK:** Miss Leonard, Miss McLane, Miss Baumbach, Miss Sulis, Mrs. See, Miss Bodine and Miss Dame.  
**SCHOOL MAGAZINE:** Mr. John James, Miss Leonard, Mr. Myers and Miss McElhaney.  
**SOCIAL LIFE:** Miss Jane E. Leonard, Miss Stewart, Miss Bodine, Miss Eyre, Miss McLane, Miss Plante, Miss Gray, Miss Wallace, Miss Loewenstein, Mr. Speicher, Mr. Jackson, Mr. Colburn and Miss King.  
**STATE BOARD:** Mr. M. C. Gordon, Dr. Jack and Miss Ackerman.

View of Campus from Top of Power House Chimney

## Functions of the Faculty Committees

(All acts of the faculty committees are subject to the approval of the Principal.)

**ADVANCED STANDING:** This Committee shall determine the value of all work done in other schools, which is offered by entering or prospective students for advanced standing here, and shall report its findings to the Principal.

**ATHLETICS:** This Committee shall have general supervision over all public athletic games, exhibitions and contests, and shall have control over the arrangements for such games, exhibitions and contests with other schools or associations.

It shall have control over the finances and property of the Athletic Association, and over the purchase of needed athletic supplies.

It shall decide what candidates for membership on teams or for admission to athletic games, exhibitions and contests shall be eligible, and it shall exclude from participation those whom it finds below the standard in their studies, or ineligible for any other cause.

It shall have power to appoint or remove Captains for the various teams.

**CLASSIFICATION:** This Committee shall enroll and classify all students.

It shall see that a full and correct registry of students be kept in the office, with copies of individual programs.

Subject to such regulations as may be adopted by the Principal, it shall pass upon all requests for changes of program.

It shall see that the grades made by students each term are duly reported to the recording official.

It shall follow up students' work and discipline delinquents, when in its judgment it thinks best, and also offer such advice and encouragement as seem wise.

It shall have the power to call upon teachers for weekly reports of the standing of students whose work is under its consideration.

**COMMENCEMENT:** This Committee shall have general executive charge of the affairs of Commencement.

It shall see that the diplomas are ready, and shall have proper programs printed.

**LECTURES AND ENTERTAINMENTS:** This Committee shall select and contract for all lectures and entertainments for the regular Normal Lecture Course.

All entertainments, excepting those which come under the control of other regular committees or the Principal, must receive the approval of this committee and be subject to its regulations before they shall be permitted to appear in the Chapel.

**DINING-ROOM:** This Committee shall have general charge of all dining-room matters not coming under the official control of the Steward; it shall do the seating; it shall see that good order is maintained, not only in the dining-room, but upon entering and leaving the same; in this work it shall have the co-operation of all members of the faculty.

**LITERARY SOCIETIES:** In working with committees appointed by the Societies, or in working with the Society officials, this Committee shall represent the Faculty. It shall labor to make more effective and valuable the work of the literary societies, and to this end shall advise with the members of the societies from time to time.

It shall have general charge of all contests, inter-society, or inter-collegiate and open meetings.

Any and all society meetings shall be open to the members of this Committee, and they shall attend the meetings from time to time.

**PROGRAM:** This Committee shall make out the term program, at least one week prior to the opening of the term.

The Committee may, when it deems best, consult with other members of the faculty relative to the schedule, but it shall have power to make out the program as it seems best in its judgment, and when so made and approved by the Principal, the same shall be final.

**\*RECOMMENDATIONS AND POSITIONS:** This Committee shall assist graduates and qualified students to secure positions to teach, and shall aid school officials in procuring teachers.

It shall collect complete and accurate information respecting all applicants for positions to teach who ask the assistance of the Committee.

**RELIGIOUS WORK:** It shall be the function of this Committee to assist and encourage the students in all religious work. It shall advise with the officers of the Y. W. C. A. and the Y. M. C. A.

**SCHOOL MAGAZINE:** This Committee shall have general charge of the publication known as the Normal Herald.

**SOCIAL LIFE:** This Committee shall have general and executive charge of the social life of the students. It shall have charge of the Saturday evening social, of the Halloween and Washington's Birthday events and such other affairs as the Haunxhurst spreads, hay-rides and sleigh-rides.

**STATE BOARD:** It shall be the duty of this Committee to make all needful preparation for facilitating the work of the State Board of Examiners.

\*NOTE: The Normal, through its Committee on Recommendations and Positions, is prepared to give systematic aid to its graduates and students in securing suitable positions to teach.

The Committee seeks to assist school authorities in procuring competent teachers. The plan is to recommend candidates best suited to fill vacancies and not to send out general letters of recommendation.

School authorities who write the Committee will have full and confidential information in regard to applicants.

School officers are cordially invited to visit the Normal to inspect the work of those whom they may wish to secure to fill positions. Correspondence is invited from Boards, Principals and Superintendents in regard to vacancies and teachers. This information will be treated in full confidence and all possible assistance will be gladly given.

While the chief work of the Committee will be to help the students who are in attendance, yet it is the purpose to lend assistance to graduates and former students in securing for themselves more satisfactory positions. To this end the full co-operation of Alumni and former students is earnestly desired. Write to the Committee when in need of a teacher. Supply information concerning vacancies.

All correspondence in regard to location of teachers should be addressed to the Secretary or the Principal.

# THE PENNSYLVANIA STATE NORMAL SCHOOL

## HISTORY

**T**HE plan of this Institution was conceived in the sixties, the first money, some twenty thousand dollars, being subscribed for its founding in 1869. The first recognition by the State was through an act of the General Assembly in 1871, but the school was not opened until May 17, 1875. Its first principal was Dr. E. B. Fairfield, who afterwards, as the first Chancellor of the University of Nebraska, so largely influenced the future of that institution.

Among the notable men present upon the opening day of the school was one of Pennsylvania's most famous educators, then State Superintendent of Public Instruction, James P. Wickersham, who stated in his public address that it was his opinion that Indiana's first building was the largest, finest and best-planned structure devoted to normal school education in the United States. A monument to its founders, that building still stands, and in honor of the first president of the board of trustees, it is known as John Sutton Hall.

In 1893 there was erected upon our campus a brick residence for men students. The building was forty by one hundred feet, and consisted of a basement and three stories. In February, 1906, this building burned to the ground. There were excellent fire escapes, so not only were no lives lost, but there were no serious injuries.

The ruins were not cold before the trustees were planning for a larger and better dormitory for our young men, and in January, 1907, the Indiana boys took possession of one of the best school residences for men in the State. The building stands upon the site of the old one, but is somewhat larger, and is known as Clark Hall, in honor of the board's second president, the late Justice Silas M. Clark, of the Supreme Bench.

In 1893, also, the board erected, to the northward of the main building, the Model School, and named it in honor of their third president, the A. W. Wilson Hall. This building contains eight large, airy classrooms, with ample playrooms in the basement for use on stormy days.

The year 1903 marked a strong advance in Indiana's material equipment. The Normal's Recitation Hall was then erected. It stands just to the southward of Wilson Hall, completing the east wing of the quadrangle. A stately structure it is and one of the most beautiful on the campus. The dimensions are a frontage of one hundred and thirty feet and a depth of one hundred and twenty-three. The building is the school proper of the Normal and contains twenty-four large beautiful rooms. The Trustees honored themselves by naming this building after one of their widely known and most faithful teachers, Jane E. Leonard.

During that same year there was erected to the westward of the south wing of John Sutton Hall another most beautiful and imposing structure, one hundred and twenty-three by ninety-two feet in size and three stories high. In the basement of this building is the laundry and storage, while on the first floor are the kitchens, dining-rooms, and the Steward's office; the Music Conservatory occupies the second and third stories. This building is known as Thomas Sutton Hall, in honor of the President of the Board of Trustees.

During the past few years something more than \$60,000 have been spent in improving the Institution's plant, the most noteworthy improvement being the erection of a cold storage plant in connection with the refectory. This cold storage plant is pronounced by experts to be one of the very best in all the country. It enables the school to manufacture its own ice, and to furnish its students at all times with the choicest fresh meats.

During the year 1910 two notable additions to our buildings were made — an annex to the dining hall, seating from eighty to one hundred; and an annex to the girls' dormitory, accommodating sixty-two girls. The dining-room annex contains a very large fireplace, which promotes good cheer and helps the ventilation materially. The annex to the girls' dormitory affords to each two girls occupying it a suite consisting of a sitting-room and bedroom. There

When Hydraengas Bloom

are two large wardrobe closets, one for each girl. In the bedroom each girl has her own bed, and there is a porcelain lavatory supplied with hot and cold water. No dormitory, however high the charges of the school, affords its occupants better rooms than these. This building is practically fire-proof, and its bathrooms — one on every floor — are tiled and finished in Italian marble. Occupants of these rooms pay from seventy-five cents to one dollar a week extra.

During the year 1913 the Trustees bought land off the Campus and across the P. R. R., and erected a Power Plant at a cost of \$140,000. This is one of the most complete plants owned by a school. It provides all heat and light and furnishes power for the elevators, ventilating fans and culinary machinery.

During the year 1914 the Ambulatory about Recreation Hall was built and the Hall itself entirely reconstructed. The "North Annex" to the girls' dormitory was built, providing rooms for seventy girls. The rooms in this annex are larger than those in the old dormitory, and they are better furnished than any other of our rooms; each girl has her own bed, her own desk, and her own study-light. An addition nearly doubling the capacity of the kitchen was built, and more than \$3,000 worth of

new kitchen appliances were added. A large fruit cave, ten feet, by sixteen feet by twenty-four feet, entirely underground, was constructed. This cave is water-proof, and enables the school to have fresh fruit practically the year around.

During the year 1915 an addition was built that doubled the capacity of the "North Annex." The rooms in the new part are better, however, than those in the part first constructed. In addition to the advantages thus afforded, each room opens into a private dressing room with lavatory supplied with hot and cold water. The entire first floor of the addition to the "North Annex," 101 feet in length is now occupied by the Library.

During the summer of 1915, an addition was built to our dining room, and \$10,000 was spent in repairing and decorating the room. Those who have seen many schools, announce their opinion that ours is the finest school dining room in America.

Indiana's student growth has never been phenomenal, but it has been steady, and has increased from 328, the total enrollment of that first term back in 1875, to more than 1,500, the number for the year just closed.

Boys' Walk Through Grove

## MATERIAL EQUIPMENT

### The Buildings

These have already been quite fully described. They all are built of stone and brick in the most substantial manner, and are heated by steam, direct or indirect, with the fan system. The main building, used as the girls' residence is equipped with three large electric passenger elevators running from the basement to the top floor, which makes the upper floors more desirable in some respects than the lower ones.

This entire building is heated by steam and lighted by electricity. Every floor is supplied with an abundance of hot and cold water, and the bathrooms, lavatories and water closets are of the most approved patterns.

On account of our method of lighting and heating, the possibility of a fire is small, while danger from it is reduced to a minimum by ample arrangements for extinguishment, and by fire-escapes abundantly provided for each floor and for each room.

In brief, this immense building is planned and furnished throughout for the convenience, safety and success of its occupants.

Each student's room is furnished with a bedstead, a bureau, a washstand, with necessary china, two chairs, a study table and a neat case of bookshelves. All rooms are carpeted and have plain shades to the windows. Many of the rooms are also furnished with single beds.

The night watchmen have their headquarters in this building, and make the rounds of all the buildings on the campus four times each night.

Each student's room in the boys' dormitory is furnished with two single iron bedsteads, a bureau, a washstand with necessary china, two chairs, and a study table. The windows are provided with plain shades.

### The Laboratories

For physics, chemistry and biology are located on the first floor of Leonard Hall. Few, if any, normal schools in this country are better equipped for science work than is Indiana.

These laboratories are supplied with every necessary instrument and equipment for individual study.

### The Library

A good reference library is accessible every day to all students. Here are found the leading encyclopedias, dictionaries and other standard reference books, historical charts, maps and other conveniences so essential to successful student life.

There is also a large library of choice works of history, biography and literature free to all students.

The Red Star system of book selection has been added. A number of books have been singled out for their humour, attractive stories, or for beauty in thought and expression.

The purpose is primarily to raise the standard of reading, and to increase love for and knowledge of the valuable works of the ages.

It is not the aim to mass books merely for the sake of making a large library; but we do aim to have every usable book and periodical.

The additions to the library during the year will aggregate about five hundred volumes.

We aim to give a brief course to each student on the use of a library.

In connection with the library is a reading-room, supplied with newspapers and periodicals as follows:

#### The Infirmary

Is pleasantly located in a retired portion of the south wing of John Sutton Hall. This infirmary, by every physician who has ever seen it, has been pronounced to be one of the finest and best in the state. It contains three tiled bathrooms, a dispensary, a kitchen and dining-room, nurses' private quarters, ample closets, ward for girls, private room for girls, ward for boys, and private room for boys. The west end is fitted for boys, the east for girls. These two apartments are separate and distinct, being divided by a hall.

Every sanitary precaution is here taken, and every necessary arrangement is provided for the intelligent care

On the East Campus in the Fall

of the sick. A graduate nurse is always in charge. Many a serious illness has been averted by early caring for the student in this Infirmary. The excellent health of our girls is proverbial, and the Infirmary is responsible in no small degree for it. No extra charge is made for care in the Infirmary, not even for the consumption of common remedies, a stock of which is always on hand. But in case the illness is such as to require the care of a physician or special nursing, the student pays that cost, and the cost of filling the physician's prescriptions. At some distance from the main buildings, and off the campus, the institution maintains a small hospital to which cases are confined if there is cause to suspect contagion.

In short, every precaution is taken to protect the health of the Indiana student; and during more than a third of a century but three deaths have occurred in the Institution, and it has never suffered from an epidemic, notwithstanding the thousands who have been under its care. Students, who because of severe or prolonged illness have to be transferred to a private hospital, have to pay the expense incurred at such institution and the cost of the transfer.

Students, who because of suffering from a contagious disease have to be removed to the school hospital, have to pay five dollars a week while in the hospital for nursing, and no deduction is made from the regular term payments.

### Boarding

The boarding department of this school is under the charge of a Steward of wide experience.

All who visit the Institution are delighted with its beautiful, spacious dining-room, and its immaculately clean kitchens, fitted up with every modern appliance of worth. The kitchen is presided over by an expert chef. There are four assistant cooks. The great bake-ovens are in the basement. We bake all our bread (white, Vienna, Graham, whole wheat, corn-bread and biscuit), pies and puddings. A professional baker has charge of the ovens.

All water served on our tables is from our own wells, drilled to a depth of more than two hundred feet.

Each table seats from eight to twelve and so far as possible is presided over by a teacher.

It is the Steward's aim to provide good, substantial, wholesome food. While it is plain, it is always the best quality to be found on our markets.

It is doubtful if there is another school in the country, whatever its character or charges, that provides a greater variety of, or more wholesome, food for its students than does Indiana. Our bills-of-fare vary with the seasons. Ice-cream is regularly served twice a week. Special meals are prepared for the sick.

Students are permitted to room and board with private families, or to room in private homes and take meals in the school, at the discretion of the Principal only.

### Laundry

The institution owns a first-class Laundry, and has it under the management of competent people. The price of board in this School includes free laundry to the extent of ten plain pieces a week, in addition to towels and napkins. In the basement of the girls' residence is a place to do washing and ironing for the use of girls only, and many of them attend to the laundering of their own handkerchiefs and other small pieces.

All articles sent to the laundry must be plainly marked with the name of the owner in some indelible form, and should be in a laundry-bag.

All water used in our laundry is sterilized, in order to eliminate any possibility of spreading infectious diseases.

### Outfit and Rooms

OUTFIT—Students are expected to provide themselves with towels, table napkins, soap and other needful toilet articles.

A Recreation Period on East Campus

**Rooms** — Students in actual attendance at the close of one term are entitled to preference in the choice of rooms for the next term. But room will not be reserved for a girl when in attendance at the school, unless she makes a deposit of five dollars with the school. If the student making deposit returns at the opening of the next term and claims her room, the deposit of five dollars will be deducted from the regular payment then to be made; otherwise, the deposit is forfeited to the school. All other students are entitled to choice of rooms in the order of the receipt of their applications.

The School authorities at Indiana do not choose rooms for individual students; because, of two rooms available, the Principal or Preceptress might choose the room that the new student would not choose. For forty years, the School has followed a method of allotting rooms which is in vogue in many of the best boarding schools of the country. At the close of the school year in June all old students who are to return the following year choose their rooms. On account of the large graduating classes, many rooms are left vacant for new students, and from these vacant rooms the new students choose their rooms when they come to Indiana in the fall, making choice in the order of their reservations. The "reservation of a room" at Indiana does not, therefore, set aside any particular room for the new student; but is simply a guarantee that a comfortable, well furnished, heated and lighted room, with privilege of bath, will be provided for the student upon her entering the State Normal School.

No rooms, selected by or for students, will be held for them beyond the second day of the term, except upon special agreement to that effect, and charge will in all cases be made for rooms thus held.

Each room is intended to accommodate two boarders, and the scale of prices given in this catalogue is arranged accordingly. Where the student, by his own choice, occupies a room alone, an extra charge will be made. Students may not room alone, except with the permission of the school's authorities.

#### Location

The Institution is fortunate in its location, the site being one of great natural beauty, while the surrounding town is

characteristically beautiful, and has developed those moral influences so desirable in the seat of an institution of learning. The town has a population of more than 6,000 and maintains churches of the following denominations: Methodist Episcopal, Free Methodist, Episcopal, Presbyterian, United Presbyterian, Catholic, Lutheran, Baptist, Wesleyan Methodist, German Lutheran and Christian.

Growth and improvement have especially marked Indiana in the past few years, and bid fair to continue. Many blocks of excellent brick paving have been laid, and contracts for many more have been let.

On the Annex Balconies

Attending a Baseball Game

The place is reached by rail without difficulty, being the northern terminus of the "Indiana Branch" of the Pennsylvania, the change from the main line being made at Blairsville Intersection, where the Indiana train awaits the main line train. The Indiana Branch connects at Blairsville with the West Penn. Division. Indiana is also on the Buffalo, Rochester and Pittsburgh, which gives connections with all northern points. The Institution is within ten minutes' walk of either depot. The Pennsylvania stops all its trains at the "Campus Landing" on the first day of each term. Both the railways put on extra

coaches at the opening of each term in order to accommodate all, if possible, with seats.

The Pennsylvania now runs a special train for Indiana students only, from our campus direct to the Union Station at Pittsburgh, at the close of each term. The train is chaperoned by teachers.

Telephone connection can be made from the main building with all leading points.

Reference has been made to Indiana's naturally beautiful location. Here in the foot-hills of the Alleghenies, fifteen hundred feet above sea-level, with a clear, pure atmosphere, its inhabitants have always been free from miasmatic or malarial complaints. For more than a third of a century the health record of the school has been phenomenal.

Our campus, comprising twenty-three acres, has its natural beauty greatly enhanced by the constant care of a landscape gardener; but its beauty is much more graphically told than mere words can do, by the photographic reproductions running through this volume. It is the belief of the Institution's authorities that such surroundings are a potent factor in the upbuilding of the student's character.

#### Purpose and Function of this School

Pennsylvania, in common with most of the American States, realized practically from its founding the necessity of an educated citizen-ship. It is axiomatic that a just and efficient government must and will be controlled and administered by the educated; hence, the genius of our government implies an educated citizen-ship. This attitude of the State toward the instruction of its people makes it the one competent agency in supplying qualified teachers for its schools. This the State of Pennsylvania does through its Public Normal Schools, whose function is the preparation of teachers for the common schools of the State. The learning and training imparted by the State through its Normal Schools has not for its purpose the bettering of the condition of one class of persons at the public expense; the school does not exist for the benefit of its students simply, but for the benefit of the whole people, and its work is done with the general welfare always in view.

Playing in the Oak Leaves

It is sometimes declared by some well-meaning critic that the normal should be "a purely professional school," meaning that the school should not do academic work, but devote itself to the teaching of pedagogics, psychology, the philosophy of education, etc. All experienced trainers of teachers realize the inefficiency of such work. Those so trained rarely make successful teachers. As well might medical students devote their time to the study of diagnosis and the theory of disease, apart from *materia medica* and the common diseases encountered in actual practice. The average high school graduate has been away from the common school subjects for from four to five years. His knowledge of those subjects was obtained at an immature age. In his normal school course they must be reviewed *from the standpoint of a teacher*. His view will be very different from the view he had as a child. The normal school must not only teach how to teach, but what to teach and the educational value of study subjects. True, it cannot and does not confine its courses to common school subjects, realizing the necessity of having the content of its courses broad and cultural. These facts make the normal school a desirable institution in which to obtain a general education for any purpose in life. More and more, far-seeing parents have recognized this, and have insisted upon the privilege of paying full tuition for having their children educated in the normal school, thus benefiting by its peculiar excellence.

For thousands of years, thoughtful men have realized the educational and cultural value of music, and its psychological effect in giving tone and sanity to mental life. American educational leaders believe in music as a school study, and insist that the common school teacher shall possess a fair degree of musical knowledge and ability. To meet this demand in training, the leading normal schools have founded strong departments of music. The department at Indiana has grown into a well-equipped Conservatory, second to none in this section of the country.

The life of a community determines the practical side of its school education. America is a business country; hence, in its cities everywhere high schools are offering business courses. To prepare teachers for this class of High School work, this Normal maintains a Business School. So thorough and excellent is the course that many are graduated from it, not to teach, but to take up business careers. In short, it is the purpose of this Institution to prepare teachers for every grade and kind of teaching of wide demand.

### Discipline

All questions of internal organization in a school must be determined by the fundamental conception of the function of the school. In determining the nature and character of discipline in a normal school, the function of the institution makes it necessary that it be but slightly, if at all, reformatory in its nature. The general welfare of the State would not be promoted by licensing one of evil tendencies or certain shortcomings to teach in the schools of the commonwealth.

It is, therefore, the policy of the administrative authorities to ask any student who does not conduct herself or

himself in all things as becomes the lady or gentleman, or who is found not to be adapted to the life and work of the school for other reasons, to withdraw from the Institution.

In the government of the school, the largest liberty consistent with good work and order is allowed. The disciplinary power of the Institution is brought to bear upon the student, only to bring him to a rational understanding of freedom, and to lead him to such self-government as will make him capable in the future of wisely governing others who shall become his pupils.

It is the desire and aim of the Faculty to make the government in the school ethical in its basis.

### Religious Influences

This school is not denominational in any sense. Its authorities, however, aim to make it a place of gentle but positive Christian influence. To this end family worship is held daily, and students are required to attend the church of their own choice on Sunday mornings.

The Y. M. C. A. and the Y. W. C. A. aid in the religious culture of all whose homes are in the Institution. They include a large portion of the students. These associations have charge of the Thursday evening prayer-meetings, and hold a joint meeting Sunday evenings. Endeavor is made to promote Sabbath observance.

Students are thus encouraged to become Christian workers, and school life is made to minister to the elevation of Christian life.

Besides these associations, there are various others of a practical type and in a highly prosperous condition.

The denominations that maintain churches in Indiana were mentioned in describing the School's location.

### The Lecture Course

The Institution maintains an excellent free lecture course for its student body. On this course is always to be found the best obtainable talent. During the past season our students had the privilege of hearing in the Chapel, among others—

Weber Quartette  
J. B. McCally (Aeronautics)  
Bishop Hughes (The American Boy)  
Gillilan (Humorist)  
Lawrence D. Kitchell (Glacier National Park)  
Spiering (Violinist)  
H. A. Adrian (Works of Burbank)  
Rev. H. Lester Smith (Evangelist)  
Dr. Miller (Health Lecture)

Frequent artist recitals by members of the Faculty of the Conservatory of Music.

### The Social Life

The residence of the young ladies and that of the young gentlemen who attend this Institution are entirely separate. All use the same dining-room, however, which adds greatly to the social and cultural life of the school. All social events in which the sexes mingle are under the direct charge of a faculty committee.

## STUDENT ORGANIZATIONS

### Literary Societies

The Erodelphian Literary Society was founded during the first years of the School. Its purpose is to give students an opportunity for practice in public speaking, and parliamentary tactics. The Huyghenian is a similar society. Both these organizations have well-furnished halls, where they hold fortnightly meetings.

### The Lincoln Debating Club

The Lincoln Debating Club is an organization for men students. Its purpose is to develop ready and useful public speakers.

The membership is limited to fifty, and these are divided into three sections, each section debating every third week. The regular program consists of a prepared debate on some serious question of the day and impromptu speeches on current topics.

The club has the benefit of a Faculty coach.

### Fraternities

#### Phi Alpha

The Iota Chapter of the Phi Alpha Fraternity was organized, February 29, 1908. The purpose of the fraternity is to promote the general welfare of its members. It is also the purpose of the Fraternity to develop and maintain high athletic standing. The Fraternity is well represented in all athletics. Good moral and scholastic standing in the School is required for membership.

#### Omega Chi

The Beta Chapter of the Omega Chi Fraternity was installed here in May, 1909. The organization has grown steadily in strength and influence, and is proud to number among its members some of the ablest boys in the school. It is heartily in favor of clean athletics, and as most of the boys are in some of the teams, it exerts its influence in that direction. At present it has some twelve active members in school.

### Sororities

#### Phi Kappa Pi

The Gamma Chapter of the Phi Kappa Pi was organized at Indiana in 1902 with a charter membership of 5. The Chapter at present numbers 15.

#### Pi Kappa Sigma

The Zeta Chapter of Pi Kappa Sigma, a normal school sorority, was organized here in March, 1909. It supple-

ments the social and literary training of its members, and maintains a scholarship and conduct test for membership eligibility.

Agonian "Fraternity," Iota Chapter

#### AKΦ

The Grand Chapter of the National Agonian "Fraternity," at their convocation in 1910, granted a charter to a club of girls in our school, installing them as the Iota Chapter of the Agonian "Fraternity." This organization is of many years standing and is particularly strong in the State of New York, the Alpha Chapter being located at Geneseo. The "Fraternity" is a link between College fraternities and Normal School literary societies, the purpose being to get from school life the highest possible good; mental, moral and social. Teachers are admitted as active members.

#### Alpha Sigma Alpha

The Alpha Gamma Chapter of the Alpha Sigma Alpha, a professional school sorority, was organized in November, 1914, from the former local sorority, Gamma Pi Beta. Alpha Sigma Alpha is a sorority of fifteen years' standing with its Alpha Chapter at Farmville, Virginia.

#### Sigma Sigma Sigma

The Grand Chapter of the Sigma Sigma Sigma Sorority, whose Alpha Chapter is located at the Normal School, Farmville, Va., granted a chapter to a club of girls in the Indiana Normal School, installing them as the Lambda Chapter, February, 1915, with fourteen charter members. This sorority is particularly strong in the South and in Western Universities. A high standard of scholarship is required. Its aim is to promote democracy and good fellowship among the students.

#### Phi Delta Phi

The Phi Delta Phi Sorority organization was formed with twelve charter members in 1910. The Sorority fosters a high standard of scholarship and supplements the opportunities for social culture.

#### Delta Sigma Epsilon

The Beta Chapter of Delta Sigma Epsilon, a professional school sorority, was organized in January, 1916, from the local club Delta Sigma. This sorority has chapters in some of the stronger western professional schools, the Alpha Chapter being located at Miami University, Oxford, Ohio.

Faculty Members at a "Bacon Fry"

**Christian Associations**

The students maintain two religious organizations—the Y. M. C. A. and the Y. W. C. A. These associations hold regular weekly meetings for devotional purposes, and occasional social gatherings. The meetings are a source of strength and help to the young people. The associations are factors for good in the School, and new students are cordially invited to identify themselves with them. Committees of the two associations meet all trains at the beginning of the terms to assist and direct new students.

Each of the associations has a furnished hall for its meetings.

**The Whatsoever Circle**

The Whatsoever Circle is a branch of the Young Women's Christian Association, which has been in operation for many years and has become noted for religious and helpful work of all kinds. Its object is, as its name indicates, to serve whosoever and wheresoever needed. Its last gift to the school is a small silver service for each of the trays to be used by the sick people.

**Alumni Association**

Indiana has graduated nearly two thousand teachers, and they constitute a loyal and enthusiastic band of supporters for their Alma Mater. The Alumni Association has been a useful factor, indeed, in the upbuilding of the School. Its services have been numerous and varied. But it is hoped that its influence may be made even more potent. No School can accomplish great things without the aid of a loyal and enthusiastic alumni. Let us not forget the fact that in our union rests the strength that will make us a success in our professional life—that it is the excellence of our work that gives reputation to our Alma Mater, and that her reputation is ours.

The Association holds an annual reunion at Commencement time. There is both a business meeting and a banquet.

**The Madrigal Club**

The Madrigal Club is a vocal-musical organization for women students only. The best part-songs are presented from time to time.

**The Glee Club**

The Glee Club of young men studies works for male voices under the direction of a member of the Conservatory faculty. An annual concert is given in the Chapel, and an extended concert tour is made during the spring vacation. Members of the Club are selected by competition and any male student of the School is eligible.

**The Vesper Chorus**

This organization numbers about seventy voices picked from the students of the School. It renders standard choral works at the Sunday evening Vesper services, and from time to time will give oratorios and other large choral works.

**Athletics**

The Institution's reputation in athletics is so well known that comment is scarcely necessary here; the Football and Baseball teams have for years won a big majority of the season's games, and the Track Team has been the champion team among schools of our rank for years in Pennsylvania and surrounding states. The Football team was the acknowledged champion Normal football team of the State of Pennsylvania for 1915, and the Scholastic Champions for Western Pennsylvania. Three members of the 1915 team were chosen on the Middle Atlantic Championship team, picked by Walter Dunn, and five Indiana men were first choice on the All-Normal School Championship team for the State of Pennsylvania.

The past year Indiana has been able again to boast of sterling athletic teams.

The girls' basketball team was the champion team of Western Pennsylvania for 1913, and held the championship in Western Pennsylvania and Eastern Ohio for 1914. Following is a schedule, with the results of the games:

January 17	Indiana 18—Edgewood 8
January 24	Indiana 27—Windber 6
January 31	Indiana 31—Wilksburg 12
February 6	Indiana 26—Langwood 6
February 8	Indiana 10—Blairsville 4
February 14	Indiana 20—Geneva College 4
February 16	Indiana 12—Wilksburg 11
February 23	Indiana 24—Alliance 12
February 28	Indiana 27—Allegheny 7
March 7	Indiana 47—Geneva College 12
March 14	Indiana 32—Kane 4
March 21	Indiana 25—Blairsville 9
March 29	Indiana 10—Windber 5
March 31	Indiana 36—Crafton 10

Following is a complete schedule of the girls' basketball team for the season of 1916, and the record portends that the Indiana girls will annex another championship this season:

January 28	Indiana 20—Crafton 10
January 30	Indiana 30—Windber 13
February 5	Indiana 38—Jennette 7
February 21	Indiana 24—Windber 12
March 8	Blairsville at Blairsville
March 10	Tyrone at Indiana
March 11	Blairsville at Indiana
March 13	Crafton at Crafton
March 17	Williamsport at Indiana
March 23	Tyrone at Tyrone
March 24	Williamsport at Williamsport
March 25	Hasset School of Gymnastics at Harrisburg

The second year for a boys' basket ball team has proved to be an added attraction to the athletic program

A Campus Scene

of the school, and in this branch of athletics Indiana has been highly successful. The game has been enthusiastically taken up by the boys, and Coach William F. Smith, with a wealth of material, has high hopes of annexing the Scholastic Championship of Western Pennsylvania to Normal's Athletic Trophies. Following is a complete schedule for the 1916 season:

January 15	Indiana 62	Youngwood 9
January 22	Indiana 20	Puuxsntawney 16
January 29	Indiana 45	Pitt Freshmen 23
February 3	Indiana 28	Slippery Rock 30
February 4	Indiana 36	Avalon A. C. 16
February 5	Indiana 19	Pitt Freshmen 27
February 11	Indiana 41	Clearfield 29
February 12	Indiana 39	East Liberty Academy 16
February 18	Indiana 47	Kittanning 21
February 21	Indiana 34	Greensburg 31
March 4	Indiana 45	Kiski 29
March 6	Indiana 14	Slippery Rock 21
March 11	Kiski at Kiski	
March 18	Kittanning at Indiana	
March 25	Greensburg at Indiana	

The base ball team for the season of 1915, coached by William F. Smith, was one of the best in the country, and one of the few teams that succeeded in defeating the Chinese University team of Honolulu. The schedule played, with the results of the games, follows:

April 26	Indiana 8	Waynesburg College 7
May 1	Indiana 0	Pitt Freshmen 0 - 11 innings
May 5	Indiana 4	Pittsburgh Scholastics 3
May 6	Indiana 17	Greensburg 1
May 11	Indiana 12	Altoona Apprentice 2
May 13	Indiana 10	East Liberty Academy 4
May 14	Indiana 13	Westminster College 3
May 17	Indiana 5	Duquesne 17
May 18	Indiana 2	Slippery Rock 6
May 26	Indiana 7	Chinese University 6
May 28	Indiana 8	Slippery Rock 3
May 31	Indiana 6	Kiski 5

June 5	Indiana 2	Kiski 15
June 9	Indiana 7	Duquesne 4
June 12	Indiana 1	St. Vincent College 8
June 18	Indiana 9	Pittsburgh Collegians 10
June 19	Indiana 1	Pittsburgh Collegians 2
June 22	Indiana 9	St. Vincent College 9 - 12 innings

The foot ball team in the fall of 1915, coached by William F. Smith, was perhaps the finest working and strongest team ever seen in a secondary school. Not once during the entire season were Normal's colors lowered. The schedule was one of the hardest ever played by an Indiana team, and the season was entirely successful. Indiana won the Preparatory School Championship of the State. The schedule of the games played, with their results, follows:

September 18	Tarentum Collegians 0, Indiana 26
September 25	Clearfield High School 0, Indiana 52
October 2	East Liberty Academy 0, Indiana 76
October 9	Waynesburg College 0, Indiana 191
October 16	Penn State Freshmen 0, Indiana 0
October 23	Slippery Rock 0, Indiana 33
October 30	Franklin College 0, Indiana 73
November 6	Mansfield Normal 6, Indiana 14
November 13	Pitt Freshmen 0, Indiana 14
November 20	Kiski 6, Indiana 13

This Institution pays nothing to the men on its teams, directly or indirectly, and all such men must be *bona fide* students. Our men play for the love of the sport and the glory of Indiana.

### Graduation

In order to be graduated from any Pennsylvania State Normal, the candidate must have passed satisfactory examinations under the Faculty in all the branches required in each year of the four-year course, and under the State Board in the branches required in the third and fourth years of the course. The candidate must also have spent

Wilson Hall — The Training School

the third and fourth years as a student in the school, unless a graduate of an accredited college, in which case residence during the fourth year only may be required.

Graduates of second grade high schools may be required to spend three years in residence at the school; but it may be possible to shorten this period in exceptional cases.

### Certificate and Diploma

The State Normal Certificate is issued to those who are graduated. It entitles the holder to teach in the public schools of the State for two years without further examination. The State Normal Diploma is a license for life to teach in this State, and is issued to graduates who have taught in the common schools of the State for two full annual school terms of not less than seven months each after graduation, and who present certificates of successful teaching from each of the school boards, countersigned by the county, city or borough superintendent. The school will furnish graduates blanks for these certificates when they ask for them. A charge of fifty cents is made to cover the expense of issuing the diploma, and an additional charge of one dollar is made if the name of the graduate is engrossed thereon. Those who want their diplomas sent to them by mail must send twenty cents to pay for registration.

### Cap and Gown

The regulation cap and gown, sanctioned by the Intercollegiate Bureau and Registry of Academic Costume, are worn by Seniors of this Institution, upon the proper occasions.

The cost of the cap and gown ranges from \$4.00 up.

The East Entrance

The Greek Seats at Entrance to Grove

## Suggestions to Prospective Students

### How to Enter the School

Upon arrival at Indiana, come at once to the Normal, but a short distance southwest of the Pennsylvania depot, and southeast of the B. R. and P. depot.

The Registrar's office is just to the left of the north entrance of the main building. All preliminary arrangements will be made here, when the students will go to Leonard Hall just north of the main building, to be classified. No student is classified who does not show the Principal's receipt for payments required at entrance. After classification, consult with the Preceptor or the Preceptress relative to the engagement of a room.

### Come Early

Success demands that you be here early. Tardiness in the commencement of a term, or irregularity of attendance after the commencement, is a very serious hindrance to success. Be here and ready for work on the very first day and the very first hour of the term.

### Time for Thorough Work

It often happens that an ambitious young man or woman limited in means, and desirous of commencing life's

active labors as soon as possible, determines to try to do two years' work in one, or that of three in two.

Such a course is scarcely ever advisable. One essential element in the teacher's preparation is time. Solid attainment is never a mushroom growth. Two years' work demands two years in which to do it well; and unless work

On one of the Girls' Tennis Courts

Lovers' Lane

is well done, the result will prove a source of regret through many years of mistakes, which might have been avoided had more thorough preparation been made. If you need more than a year for your work, and have only the means at command for one year's expenses at school, come for the year, and then, by remaining out of school for a time, make it possible to return and complete your course. It is not an absolute necessity that you graduate at a certain time; it is absolutely essential to your true success that you make thorough preparation.

#### Visits

Success demands concentration of thought. This is prevented by frequent visits at home or elsewhere, and usually time thus spent greatly hinders the progress of the student. Make few, if any, visits away from school.

#### Your Own Books

While you will find many books of reference here, still it is advisable for you to bring all the books you have, that you may make personal and daily use of them. The habit of such use is of incalculable importance, and the school life should ever minister to the formation of such habits as will lead to success in the after walks of life. Bring your books with you; place them where you can conveniently use them, and by their use form a habit, the value of which you can never overestimate.

#### Conform

It is the school's interest and purpose to serve you, but this it can do but poorly unless you conform to the life of the Institution. Make up your mind to get all the good out of the school you can. Come with the purpose of being happy in your work, of getting acquainted and entering heartily and cheerfully into the complete life of the school, making it all yours.

#### The School's Reputation Yours

The Indiana Normal proposes to maintain a high standard of excellence, both as to scholarship and as to attainment of skill in teaching.

Our inquiry is, and will remain, not how many we can graduate, but how many, and who, are thoroughly prepared for graduation.

For the sake of those who shall employ our teachers, and for the sake of the teachers themselves, we desire to make our diplomas valuable and preserve to them their value; and we trust that you will appreciate the fact that you must yourself contribute to so desirable an end.

#### Additional Subjects on Diplomas

Persons who have been graduated may be examined by any State Board in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas to the passing of the branches completed at said examination.

Hunting Four-leaf Clovers

## STATEMENT OF EXPENSES

	Fall year, 40 weeks	Fall term, 15 weeks	Winter term, 15 weeks	Spring term, 12 weeks
*Total charge (including enrollment fee, board, room, heat, light and laundry, for boarders preparing to teach	\$200 00	\$75 00	\$65 00	\$60 00
Total charge (including enrollment fee, tuition, board, room, heat, light and laundry) for boarders not preparing to teach	260 00	97 50	84 50	74 00
*Tuition for day students preparing to teach	Free	Free	Free	Free
*Total charge for day students preparing to teach	15 00	5 00	5 00	5 00
Total charge for day students not preparing to teach	75 00	27 50	24 50	23 00

‡Special Normal Domestic Science	60 00	22 50	19 50	18 00

\*FREE TUITION — The State pays the tuition of students who comply with the conditions set forth in the following statute passed by the Legislature of Pennsylvania in 1905:

"For each student 17 years of age, who shall sign an agreement binding said student to teach in the common schools of this State two full annual terms, there shall be paid the sum of one dollar and fifty cents a week in full payment of the expenses of tuition of said student."

\*Provided, That each student in a State Normal School, drawing an allowance from the State, must receive regular instruction in the science and art of teaching in a special class devoted to that subject for the whole time for which such an allowance is drawn."

"In case of a defect in the State appropriation, students at the different State Normal Schools will receive their pro rata share of the appropriation, and will be required to pay balance to the school."

†Persons, not preparing to teach, who desire to take Domestic Science or Manual Training only would have to pay, in addition to this "extra" fee, \$200.00 for the year, proportionately for a term, if boarders, if day students, they would have to pay \$75.00 a year, and proportionately for a term in addition to the "extra."

‡Boarding students, preparing to teach Domestic Science, who desire to take the Special Normal Domestic Science Course would have to pay in addition to this extra fee \$200.

A charge of \$1.00 a term is made for a Lock Post-Office Box, and must be paid by all students.

The cost of books is an item of expense that cannot be determined because a student can take a longer or shorter program as he may elect, and because he may own part of the books that he will need; but it has been found, by long experience, that the average rental for books amounts to about \$1.50 per term.

Students remaining at the School during the Thanksgiving recess, or the Christmas or Easter Vacation, will be charged the transient rate for board, \$1.00 per day. For lunch only taken at the school the charge is \$1.50 a week.

There are rooms on the first and second floors of John Sutton Hall for which a special price is charged. There are also in various parts of the building, a few suites for which an extra charge is made. In the Annex an extra charge of one dollar a week for each occupant is made. These rooms come *en suite*, each occupant has her own bed and wardrobe, and the bedrooms are supplied with lavatories furnishing both hot and cold water. In the North Annex an extra charge of seventy-five cents a week for each occupant is made. Girls occupying rooms for which no extra charge is made will pay fifteen cents

extra per week if single beds are provided, to meet the extra expense of laundry for bed linen.

At the opening of the year, all necessary electric lamps will be furnished free, after which the student will pay for extra lamps.

We have a very limited number of small rooms that are let for single occupancy, at an extra charge of seventy-five cents a week. In case a student is permitted to occupy a double room alone, she must pay one dollar a week for the privilege. If the room is one for which extra rent is charged, the occupant, in addition to the above mentioned charge of one dollar, must pay the full extra that two girls would pay. For instance, if a student were occupying alone one of the best suites in the Annex, she would pay three dollars per week extra. With a roommate, in the same room, she would pay but one dollar extra per week.

### Estimated Cost of Attending the Normal One Year For Student Preparing to Teach

Enrollment Fee	8 15 00
Room, Board and Laundry	185 00
Rental of Lock Post-Office Box	3 00
Rental of Books	4 50
Paper, Pencils, Drawing Materials, etc.	10 00
Fees in Domestic Science or Manual Training	7 00
	\$224 50

If student is not preparing to teach, add \$60.00 to above.

If student desires room with single beds, add \$6.00 to above.

If student desires room with running hot and cold water, add \$40.00 to above.

### Amount and Time of Payments

#### Fall Term

At beginning of Term—

All day students taking State Aid will pay 8 5 00

All day students not taking State Aid will pay 27 50

All boarding students will pay 75 00

The above payments include the enrollment fee.

The East Campus in Winter

A Lesson in Kitchen Gardening

At middle of term, all bills for extra room rent, music, extra charges for any courses outside the regular normal courses, etc., are due from all students. The regular normal tuition amounting to \$22.50 is also due at this time from boarding students not taking State Aid.

Boarding students who are seventeen years of age, or over, and are preparing to teach in this State, do not have the regular normal tuition to pay. Such students, unless they have incurred extras as mentioned above, have only the first payment of \$75.00 to make during this term. This statement modified to suit the condition applies to the other two terms.

A Wreath for her Hair

#### Winter Term

At beginning of Term—

All day students taking State Aid will pay . . . \$ 5.00

All day students not taking State Aid will pay . . . 24.50

All boarding students will pay . . . . . 65.00

At middle of Term, bills covering the same items as for the middle of the Fall Term fall due. The regular normal tuition for the Winter Term is \$19.50.

#### Spring Term

At beginning of Term—

All day students taking State Aid will pay . . . \$ 5.00

All day students not taking State Aid will pay . . . 23.00

All boarding students will pay . . . . . 60.00

At middle of Term, bills covering the same items as for the middle of the Fall Term fall due. The regular normal tuition for the Spring Term is \$18.00.

#### How to Pay Bills

An "enrollment fee" of five dollars for each term is charged all students, and is included in all first payments. This fee entitles the student to a ticket of admission to all athletic events, the course of the University Extension Lectures and all other lectures under the auspices of the school.

*State Aid is not credited before the end of the term.*

Bank Drafts, Checks, Express and P. O. Orders are accepted. Payments must be made, or satisfactorily provided for, before students are assigned to classes.

Students desiring to leave school before the close of the term must report to the Principal and settle any unpaid accounts.

Visitors expecting to remain more than three days are requested to make arrangements in advance with the Principal.

Meal tickets for visitors can be obtained in the Book Room.

All bills are payable to the Principal, and all checks should be made payable to James E. Ament, Principal.

### Statement of Expenses in the Conservatory

	Full year, 10 weeks	Full term, 15 weeks	Winter term, 13 weeks	Spring term, 12 weeks
Incidental fee, all students	\$ 15 00	8 50	8 50	8 50
Board, room, heat, light and laundry	185 00	70 00	60 00	55 00
Tuition, regular course	120 00	45 00	39 00	36 00
Public School Music Course, for students preparing to teach	100 00	37 50	32 50	30 00
Public School Music Course, for students not preparing to teach	160 00	60 00	52 00	48 00
Special students in Piano, Organ, Voice, Violin or Wind Instruments:				
One lesson per week	10 00	15 00	13 00	12 00
Two lessons per week	80 00	30 00	26 00	24 00
Class lessons in any Theoretical Subject	15 00	5 00	5 00	5 00
Class lessons in Piano, Voice or Violin, under student teachers	20 00	7 50	6 50	6 00
Organ rental, 45 minutes per day	7 50	2 50	2 50	2 50
Piano rental, 45 minutes per day	30 00	10 00	10 00	10 00

NOTE: No reductions are made for lessons lost except in cases of protracted illness.

NOTE: Students are expected to practice from one to five periods per day, according to the degree of advancement and the nature of the work.

### Deductions and Refunds

(Read carefully)

No deduction is made for absence the first two or the last three weeks of a term, for any cause whatever.

For absence four consecutive weeks or more on account of the student's *personal* illness, one-half the paid-in charges for the time lost is refunded; provided the student's physician in attendance certifies that the illness was of such a character as to render the student unable to attend school. A proper blank for this certificate will be furnished by the school.

When a student drops out of a strong and popular school, he vacates a place that might have been occupied by another, who would have remained through the term.

West End of Conservatory Hall

The school's expenses for light, heat, etc., are not lessened by the student's dropping out. The teachers who could teach him still remain and draw their salaries. Food for a large school cannot be bought daily on the markets of a small town; consequently, the authorities, calculating on a full school, must contract for food in advance for a term, and sometimes for a year. For these reasons some of the best conducted schools will make no refunds for any cause, but insist upon a full year's payment in advance, against which no claims will be recognized. Indiana, however, as indicated above, will share the loss with the parent or guardian where the absence is caused by the student's sickness. August 31st is the close of the School's fiscal year, when the State Audit is made, and after that date no refunds for any reason or purpose whatsoever are made.

In cases of light illness, a student will be cared for in our Infirmary. No charge will be made for nursing. If the attendance of a physician is needed, the student must meet his charge. In case of serious illness, it will be necessary for the student to be removed either to her home or to a private hospital, in which case the student must meet the charges.

The school maintains a small hospital to which persons suffering from contagious diseases are removed. Students occupying this hospital are charged five dollars a week for

On the Boys' Tennis Courts

general care, not including that of a physician or trained nurse. No deduction from the regular charges of the Institution is made for such students because of time lost from their classes.

The Infirmary of this Institution, with wards for both sexes, private rooms, dispensary, baths, buffet, etc., is one of the best and most complete to be found. It is at all times in charge of a professional nurse, of wide experience.

### A Comparison of School Expenses

We are often asked by prospective students and parents contemplating the education of a son or daughter, if the charges at Indiana are reasonable. For the information of such we offer the following comparisons:

Indiana's charge for a full year of 40 weeks, for all fees, tuition, board, room, heat, light and laundry, in the Normal Department, is from \$200 to \$260.

The best of the smaller colleges of our State, such as Haverford, Lafayette and Swathmore, charge for board, room and tuition, exclusive of laundry and sometimes class fees, from \$300 to \$375.

Phillips Academy in Massachusetts gives \$465 as "moderate" for tuition, board and room for one year, and \$595 as "liberal."

As an example of the cost of attending one of the great universities of high grade, we mention Princeton, where the average cost is \$568 a year.

Many of the country's best private schools charge from \$600 to \$1,500 a year, and the year in such schools seldom exceeds 36 weeks in length.

The State Normal is not designed to be a money-making institution; hence, its charges are kept down to the actual cost of maintenance.

### Text Books

Stationery and text books used in the Institution can be purchased at the Book Room in the main building at regular prices; or the text books can be rented at reasonable rates by those who do not wish to purchase.

Any student entering the Institution, who has been a student during some previous term, will not be given credit in the Book Room until he has canceled any indebtedness that he may have left standing against him in that department.

The following is a list of text books in use:

AGRICULTURE—  
Productive Farming—Davis.  
ASTRONOMY—Steele.  
BOTANY—Bergen.  
BUSINESS—  
Bookkeeping—Rowe.

# COURSES OF INSTRUCTION

Adopted by the Board of Principals

## Regular Course

Students admitted to the First Year shall have a fair knowledge of Arithmetic, Reading, Orthography, Penmanship, United States History, Geography, Grammar, Physiology, Civics and the Elements of Algebra to Quadratics. Test by Faculty.

	Sixty minute periods	Forty-five minute periods
<b>First Year</b>		
Algebra	120	160
Latin	120	160
School Management	120	160
School Law	120	160
Orthography	30	40
Reading and Public Speaking	40	50
Ancient and Mediaeval History	80	100
Physical Geography	40	50
Arithmetic	80	100
Grammar	120	160
Vocal Music	40	50
Physical Training	60	80
Manual Training or Domestic Science	40	50
		1160

## Second Year

	Sixty minute periods	Forty-five minute periods
<b>Second Year</b>		
Plane Geometry	120	160
Rhetoric, Composition and Classic	120	160
Botany	80	100
Bookkeeping	40	50
Modern History and English History	80	100
Caesar	120	160
General Methods	120	160
Drawing	80	100
Physical Training	60	80
Manual Training or Domestic Science	40	50
Civics	40	50
		1170

## Third Year

	Sixty minute periods	Forty-five minute periods
<b>Third Year</b>		
Psychology and Observation	120	160
Cicero, German or French	120	160
Literature, English and American	80	100
History, U. S.	40	50
Geography	60	80
Physiology and School Sanitation	60	80
Solid Geometry and Trigonometry	120	160
Methods in History and Geography	80	100
Chemistry	120	160
Physical Training	60	80
Zoology	40	50
		1180

## Fourth Year

	Sixty minute periods	Forty-five minute periods
<b>Fourth Year</b>		
Practice Teaching	120	160
History of Education	80	100
Agriculture and Nature Study	80	100
Arithmetic	40	50
Grammar	40	50
Methods in Arithmetic and Grammar	80	100
Virgil, German or French	120	160
Public Speaking	40	50
Physics	120	160
Drawing	40	50
Manual Training or Domestic Science	40	50
Physical Training	60	80
		1110

In the Third Year the History of Arts and Sciences may be substituted for Cicero, French or German. Geology and Astronomy may be substituted for Solid Geometry and Trigonometry. French or German may be substituted for Solid Geometry or Trigonometry.

In the Fourth Year Ethics, Logic and Sociology may be substituted for Virgil, French and German. Philosophy of Education or Surveying may be substituted for Ethics, Logic or Sociology.

Spanish may be substituted for French or German.

Methods of Music may be substituted for Logic, Sociology, Ethics, Surveying or Principles of Education.

After 1916 no degrees shall be granted by the Normal Schools.

The above course is based on the "unit" plan as proposed by the Carnegie Foundation.

A "unit" represents a year's study in any subject in a secondary school constituting approximately a quarter of a full year's work.

This statement is designed to afford a standard of measurement for the work done in a secondary school. It takes the four-year High School course as a basis and assumes that the length of the school year is from thirty-six to forty weeks, that a period is from forty to sixty minutes in length and that the study is pursued for four or five periods a week; but, under ordinary circumstances, a satisfactory year's work in any subject can not be accomplished in less than one hundred and twenty sixty-minute periods or their equivalent. Schools organized on a different basis can nevertheless estimate their work in terms of this unit.

## Conditions of Admission

1. Properly certified graduates of approved Pennsylvania high schools of the first grade and city high schools as listed by the Department of Public Instruction, shall be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, and be

Returning from Christmas Vacation by P. R. R. Special

### Four-Year Course as Arranged for the Indiana Normal School

Term	Freshmen, or First Year	Sophomore, or Second Year	Junior, or Third Year	Senior, or Fourth Year
<b>Fall Term</b>	Algebra I Latin I School Management I Grammar I Manual Training Physical Geography Arithmetic I	Geometry I Drawing I Rhetoric and Comp. I History (Ancient and Mediaeval) Caesar I Methods I	Psychology and Observation I Cicero I Literature, English Solid Geometry Chemistry I Zoology	Virgil I Grammar Arithmetic Physics I History of Education I Drawing III Manual Training
<b>Winter Term</b>	Algebra II Latin II School Management II Grammar II Arithmetic II Spelling Physical Training	Geometry II Botany I Rhetoric and Comp. II History (Modern) Caesar II Methods II Physical Training	Psychology and Observation II Cicero II Literature, American Geography Trigonometry Chemistry II Physical Training	Virgil II Teaching I Methods of Arithmetic Physics II History of Education II Public Speaking Physical Training Manual Training
<b>Spring Term</b>	Bookkeeping Latin III School Law Reading Vocal Music Physical Geography	Civics Botany II Classics English History Caesar III Methods III Drawing II	Psychology and Observation III Cicero III Physiology Methods in History History, U. S. Chemistry III Methods in Geography	Virgil III Teaching II Methods of Grammar Physics III Agriculture and Nature Studies Manual Training

In the Third Year the History of Arts and Science or German or French may be substituted for Cicero. Geology and Astronomy may be substituted for Solid Geometry and Trigonometry.

In the Fourth Year Ethics, Logic and Sociology or German or French may be substituted for Virgil. Philosophy of Education, or Surveying, may be substituted for Ethics or Sociology.

Women may substitute in this course Domestic Science for Manual Training. Manual Training or Domestic Science is given once a week through the year.

### Normal Preparatory

The following sub-freshmen, or preparatory, year is offered at Indiana State Normal School:

Fall Term		Winter Term		Spring Term	
A Algebra	A Grammar	B Algebra	B Grammar	C Algebra	A Composition
A Arithmetic	A Reading	B Arithmetic	A Spelling	B U. S. History	A Physiology
A Geography		A U. S. History	A Civics		Penmanship

conditioned in the branches that have not been satisfactorily completed by such students.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade shall be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade shall be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

4. A person who desires to be admitted to the second or the third year without having previously attended an accredited high school, must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which any one is conditioned under this rule or any one of the rules above, shall not foot up more than 320 weeks.

5. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

Campus Stroll after a Snow Storm

6. If a person who has completed the State Board examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of any studies at a State Normal School shall be issued.

7. Candidates for graduation shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double entry bookkeeping; and all studies completed by them shall be named in

## College Preparatory Course

The College Preparatory Diploma will be granted to those completing this course. Special courses may be planned for colleges requiring less entrance work, but no diploma will be granted unless the course as outlined below is completed.

### Sub-Freshman

--	---	--	--	--	--

Note.—Substitutions may be made to suit the requirements of the classical, scientific, or engineering courses of the various colleges. French may be substituted for the third and fourth years of Latin; Greek may be substituted for German. Mechanical Drawing, Geology and Astronomy may be substituted for Solid Geometry, Trigonometry and Surveying. Grades will be accepted from accredited high schools.

A college preparatory diploma will be granted to those completing this course. Special courses may be planned for colleges requiring less entrance work, but no diploma will be granted.

New Ambulatory Around Recreation Hall

their certificate. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of each examiner together with a separate list of students conditioned in any branch, with the branches in which they were conditioned and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

9. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the fact that the students thus conditioned have taken up such subjects and passed them by the Faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State Examination.

10. Within fifteen days after the examination by the State Board at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches together with a list of these branches, also a list of those to whom diplomas and certificates are granted, and a list of those who passed the State examination in any year, naming the year.

11. Graduates of State Normal Schools in the regular course, and graduates of colleges approved by the College and University Council, who shall satisfactorily pass the Faculty and State examinations in the course required therefor, shall receive the degree of Bachelor of Pedagogics. And Bachelors of Pedagogics who have, after receiving such degrees, taught successfully for two years, and passed the Faculty and State examinations in the course required therefor, shall receive the degree of Master of Pedagogics.

12. Residence for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in colleges approved by the College and University Council, who may be graduated after one year's residence.

NOTICE: The above regulations have been adopted by the Board of Principals and approved by the State Superintendents of Public Instruction. They, therefore, constitute the law governing these matters in all the State Normal Schools of Pennsylvania.

### Department of Education

DR. AMENT	MR. COLCORD
MISS ROBINSON	MR. SPEICHER
MISS ACKERMAN	MISS WALLACE

The general purpose of the department of Education is to familiarize the students with the underlying principles of the education process, and to teach them the direct application of these principles in modern methods of instruction. Specifically, the foundation and elementary principles are presented in the Freshmen year; special problems in school organization are studied in the Sophomore year; and these are applied in History, Geography, English and Arithmetic in the Junior and Senior years.

A Cozy Corner in End of Hall

Grand Lobby in John Sutton Hall

Correlated with the direct pedagogy, Psychology and History of Education are presented in the Junior and Senior years.

**PEDAGOGY** — The solution of the school problems that arise in daily experience demands a thorough acquaintance with what has been found most effective and desirable. While it is true that without subject matter methods are valueless, the supposition is that a man or woman who is admitted to-day into the schoolroom is fairly well provided with the knowledge requisite for the task. Many teachers fail, however, in handling their equipments; many and many a pupil wastes a large part of his time in school because of the imperfect way in which the subject matter of even a common school education is presented.

The purpose of this subject is to acquaint the student with the fundamental principles of school hygiene, of good order, of successful recitation work, of the relation of the

school to the community, and to lay a foundation for further work and growth along educational lines.

The course is given in the Fall and Winter terms of the Freshman year.

**SCHOOL LAW** — During the Spring term of the Freshman year the school law of Pennsylvania is studied.

**SCHOOL MANAGEMENT** — The work in the Sophomore year is a continuation of the pedagogy of the Freshman year. It deals with methods of school management rather than with specific methods of teaching a subject which are taken up later. The aims of the course are, first to furnish the prospective teacher with a compendium of precepts that will aid him in the mastery of technique; secondly, to interpret these precepts in the light of accepted psychological principles; and, thirdly, to unite both precepts and principles into a coherent and fairly comprehensive system. The course continues throughout the year. Bagley's "Classroom Management" is the text used. Reference is made continually to other standard texts and to educational magazines.

**JUNIOR METHODS IN HISTORY AND GEOGRAPHY** — Junior methods is given in the fall, winter and spring terms. It is a one-term subject. McMurray's "Special Methods in History and Geography" are used as text books. The State Course of study for the elementary schools follows the course in history presented in the Report of the Committee of Eight to the American Historical Association; hence that Report is made the foundation of the presentation of plans for better work. Valuable aids are found in Johnson's Syllabus on the Teaching of History published in Strayer's Brief Course in the teaching process, and in Winterburn's Methods in Teaching. In Geography, fol-

A Teacher's Suite in the Tower

In the Green Room

Following the State Course of study, use is made of Dodge's Syllabus on the Teaching of Geography (published in Strayer's Brief Course) of Redway's New Basis of Geography, and, for Nature-study, of the Report of the Committee on industrial education in schools for rural communities to the National Council of Education, 1905.

**SENIOR METHODS IN ARITHMETIC** — Senior Methods in Arithmetic is taught in the fall and winter terms. It

is a one-term subject. The general aims of the course are to teach the historical methods of presenting the subject for the purpose of discovering their values and limitations, to sift out of the great mass of material, the fundamental principles and problems that are of pedagogical importance, and to discuss modern plans for securing accuracy, speed, and alertness in the class room. The instruction is based on Smith's "Teaching Elementary Mathematics," and Brown and Coffman's "How to Teach Arithmetic."

Coming From Classes

**SENIOR METHODS IN LANGUAGE** — Senior Methods in language is taught one term. It includes instruction in the Aldine system of reading, Suyallo's spelling, the art of story-telling, methods in teaching literature, and methods in oral and written composition. No text is used.

**HISTORY OF EDUCATION** — While we use as a basis for class-work "A Student's History of Education," by Frank Pierpont Graves (Dean of the School of Education and Professor of Education in the University of Pennsylvania, McMillan Co., 1915); we encourage outside reading along educational lines and animated discussions on ideals and theories, practices and problems of education. The general purpose of the History of Education in our school is to create an atmosphere in the classroom that awakens a

Looking through Recreation Hall toward the Blue Room

desire to study the development and evolution of our present school system; that broadens our students' horizon by making them familiar with the leading educational theories and systems of all times, which have influenced our present ideals and practice. Thus we hope to give the future teachers an intelligent understanding of the purpose of life and education to-day, so that they realize the social demands made upon the school and finally we try to awaken such interests and ideals in them as will prompt the life-long study of their relationship towards the social and educational needs of the community and the readjustments necessary to meet them.

**PSYCHOLOGY** — In the presentation of the subject of psychology the instructors aim to follow three lines of interest. These are the dependence of the mind upon the nervous system; the distinctions between mental states, and the applications of the principles established by the science to one's own thinking and to the direction of the thoughts of pupils. The first and second of these lines of study have cultural value. They also have professional value, inasmuch as the facts considered form the scientific basis of educational doctrine. Psychology is a three-term subject and is presented during the Junior year.

Text: Betts' "The Mind and Its Education."

**RELATION TO THE TRAINING SCHOOL** — The Department of Education and the Training School are not two separate lines of interest. The methods presented in the classroom are those used in the training school, thus giving the student an opportunity to keep theory and practice in intimate relation.

### Department of English

MISS LEONARD

MISS SMITH

MISS HUNT

MISS NOBLE

MISS SPROWLS

#### ENGLISH GRAMMAR.

##### *Courses:*

<i>Preparatory</i>	<i>Freshman</i>	<i>Senior</i>
A Grammar	Grammar I	English Grammar
B Grammar	Grammar II	

*Text Books:* School Grammar—Maxwell. Structure of the English Sentence—Kimball. English Grammar—Baskerville and Sewell.

The courses in grammar presuppose a foundation in language work. For those who are deficient in the simpler grammatical requirements A and B Grammar are given. These deal with the parts of speech and their common uses and with the simpler sentence forms.

In Grammar I a careful study is made of the uses and inflections of the parts of speech, including such forms as the infinitive and the participle. Frequent analysis of sentences is also given.

Grammar II deals with syntax. Much attention is given to the analysis and structure of sentences and to the agreement and government of words.

A thorough review of grammar is given in the Senior

year. The study is considered in the light of all previous work, in both English and the other languages.

**COMPOSITION** — The chief aim in the beginning of the course is to overcome the restraint that the student feels in translating his own thoughts and feelings into words. Later we work for accuracy and effectiveness in expression. These are secured by imitation of the best models, and by cultivating the student's taste and his appreciation for the best literature. Short themes in description, narration and exposition are required. A special study of the paragraph and of the sentence is made.

*Readings:* The Vision of Sir Lannfal.

**ENGLISH I** — In this course a thorough study is made of the structure of the sentence, the paragraph and the theme. Many short themes are required for the purpose of drill in freedom of expression. Special attention is given to punctuation and grammatical construction. The three principles of rhetoric — unity, coherence and emphasis — are studied with reference to their value in good literature and application to the original work of the student. A brief course in the writing of business letters, letters of friendship and formal notes is given.

*Readings:* Ancient Mariner—Ivanhoe.

**ENGLISH II** — Longer monthly themes are required to give practice in the four forms of discourse. A thorough drill is given in the use of words and idioms. Figures of speech and prosody are carefully studied.

Looking Across Recreation Hall from the Ambulatory

*Readings:* Tale of Two Cities.

**CLASSICS** — In this course masterpieces are studied from the standpoint of style.

*Readings for 1916:* As You Like It; Lady of the Lake; Selected Essays.

**LITERATURE** — An attempt is made through lecture, outline and recitation to point out the leading characteristics of each period in English and American literature, with the most important details of the lives of representative writers. The intimate connection of literature with the social, political and intellectual life of the nation of which it is the product and expression is kept in mind. The aim of our brief course is not only to supply the student with knowledge, but also to refine his thought and feeling, to create a taste and enthusiasm for reading, and to leave him with some knowledge of principles by which he can determine what is best.

In connection with the lives of the authors there is a careful reading of various English and American masterpieces.

Students preparing for college cover the work prescribed for college entrance, comprising the thorough study of four classics and the reading of ten others.

*For Study in 1916-1917:*

Washington's Farewell Address  
Lincoln's Addresses  
Idylls of the King

Hamlet  
Julius Caesar  
Romeo and Juliet  
The Odyssey  
Lorna Doone  
Gulliver's Travels  
Lamb's Elia  
Carlyle on Burns  
Childe Harold's Pilgrimage  
Selections from the Life of Macaulay  
Selections from the Old Testament

**EXPRESSION** — In the Freshman year the work deals primarily with drill in reading; special attention is given to correction of defects in speech and voice. In the latter part of the term work is begun in Public Speaking.

In Senior Public Speaking, selections are memorized and delivered before the class; a study is made of the first four steps of "The Evolution of Expression;" notes are given as aids to the teaching of Reading and weekly recitals are held in which members of the class appear. Two formal appearances before a public audience are required of each student in the Senior year.

Aside from the class work done in this department, a large amount of public work is carried on through the two literary societies of the school and the Lincoln Debating Club. The plays given by the societies each year are a very strong feature of this work, and through them much progress is made along the lines of Dramatic Art.

West End of Ambulatory

### Department of History

DR. JACK

MISS GREENLEE

#### UNITED STATES HISTORY.

##### *Courses:*

History A. History B. Preparatory Year.  
History IV. Junior Year.  
American History—Muzzey.

History A. History of the United States to the War of 1812.

History B. History of the United States from the War of 1812 to the present time.

History IV. General review of United States History.

The aim of the two courses in the Preparatory Year is to furnish an opportunity for preparation to take up the work of the Freshman Year.

The aim of the review course in the Junior Year is to prepare the student to teach American History in the grade schools.

The inter-relation of Geography and History is carefully noted and the industrial, educational and social growth is studied along with the political and constitutional growth. The work is supplemented by as much research in the library as is possible in the time allotted to the subject. Some attention is given to current history, this part of the work being done by means of special topics.

#### GENERAL HISTORY.

##### *Courses:*

Ancient History I. Freshman Year.

*Text Book:* Ancient Civilization — Ashley.

Mediaeval and Modern History II. Sophomore Year.

*Text Book:* History of Western Europe—Robinson.

The aim in this department is not only to familiarize the student with historical facts, but also to develop the historical imagination. To accomplish this, constant refer-

ence is made to primary sources. A text book is used as the basis of study, but there is a considerable amount of collateral reading for every lesson. The student is required to draw maps frequently so that he may get a clear picture of those physical features that form the permanent framework of changing political boundaries and movement.

#### ENGLISH HISTORY.

History III. Sophomore Year.

*Text Book:* Manual of English History — Lancaster.

The chief interest in the study of the History of England is found in its constitutional aspect. The English constitution is a product of the slow growth of the English people through several centuries. It has furnished a model for the constitutions of many other nations. In order to be in complete harmony with the environment, it is necessary for the American of today to understand the origin and growth of our social and political institutions and tendencies. In teaching English History, special emphasis is put on the fact that our American civilization comes largely from English beginnings.

#### CIVICS.

Preparatory Year. One-half term.

Sophomore Year. One term.

*Text Books:* Rights and Duties of American Citizenship — Willoughby. School Civics — Boynton-Pierson.

The student is given some knowledge of the nature of political authority. He is led to an understanding of citizenship and government in general, before taking up the study of our complex government. The rise of the nation is considered. A study of the history of the constitutional convention is made. A review of the text of the constitution, the meaning of the terms employed, together with the historical incidents to which they refer, are made prominent. The framework of the government — both National and State — is examined.

A Social Hour in the Ambulatory

A Minor Stairway — Trophy Case to Left

### Department of Mathematics

MR. SMITH                      MR. GORDON                      MISS WINTERS  
MR. WILEY                      MR. PERRY                      MR. BEISEL

**ARITHMETIC**—The work in Arithmetic is designed to prepare the student for subsequent work in mathematics or for teaching in the public schools. It also gives him a practical knowledge of the subject and prepares him for business life. The subject is made clear through the use of concrete and practical problems.

The subject of Arithmetic is covered in three terms and the work is approximately as follows:

#### First Year.

1. Drill in the fundamental operations with integers, decimals and fractions.
2. Denominate numbers, omitting tables that are not in common use.
3. Mensuration and surfaces.
4. Percentage and its application.
5. Interest, including discount.
6. Ratio and simple proportion.
7. Involution and evolution.
8. Drawing plans, plots and maps to scale.
9. Metric system.
10. Practical problems of all kinds.
11. Frequent reviews and drills.

#### Fourth Year.

1. Intensive study of arithmetical principles involved in the fundamental operations in integers, fractions and decimals.
2. Practical mensuration.
3. Miscellaneous problems.
4. Drills demanding alertness and accuracy.
5. Oral work.
6. Emphasize the importance of good English in all solutions.
7. Metric system.
8. Study of banking, stock market, money and other sources of arithmetical problems.

**ALGEBRA** — The object of this course in Algebra is to give the student a thorough knowledge of the principles of elementary Algebra, and much work in practical applications thereof. This thoroughness of the course is desirable both for the students who expect to teach in the public schools and for those desiring to do advanced work. The work is planned to assist the student in this further

study of mathematics and the study of the physical sciences. The culture value of Algebra is recognized and the student is led to realize the beauties of the subject.

The work is approximately as follows:

#### First year.

1. Review of fundamental operations, including factoring.
2. Fractions, including ratio and simple proportion.
3. Simple equations with a study of graphs.
4. Involution and evolution.
5. Quadratic equations.
6. Radical equations.
7. Theory of exponents.
8. Binomial theorems.
9. Practical problems.

In order to complete this work in a year, the student should have had a full year's work in Algebra before entering. Quickness and accuracy of thought are predominant aims in the work.

**GEOMETRY** — The required work in Geometry covers the ground outlined in Wentworth's Plane Geometry, Solid Geometry, which is elective in the junior year, is based on Wentworth's Solid Geometry.

The body of Geometrical truth is an organized structure, the careful study of which has ever been a stimulus and a discipline to those who have pursued it. The prospective teacher receives a training which is essential in his work as a teacher and in the pursuit of scientific studies. Among the mental and moral qualities which it is the aim of this course to develop are the following: Initiative, self-reliance, and the ability to cope with a new situation. The study of Geometry develops the habit of accurate reasoning, the habit of looking confidently for the solution of every problem, including those of everyday life, of discriminating between the essential features of a problem and those which are not essential.

After a thorough study of the demonstrations of the author, the student takes up the demonstrations of the original exercises. With these he is able to deal, after a few suggestions; this gives him self-reliance and power and he proceeds confidently and accurately. Such a course as

On Grand Stairway in John Sutton Hall

Lobby at Entrance of Dining Room

this gives the student a mind trained to meet the problems which confront the teacher.

### GEOMETRY

#### Plane.

1. Study of the five books.
2. Correlate algebra, arithmetic and geometry.
3. Practical problems.

#### Solid.

Continue the work of the preceding year. Make and use models and devote considerable time to practical problems based upon the demonstrations.

**TRIGONOMETRY AND SURVEYING** — One term is devoted to Trigonometry and one to Surveying. The Trigonometry is Plane Trigonometry. The work includes the study and use of logarithms, sufficient study of the triangle to prepare for Surveying, the development of the formulas, and practical applications.

The term devoted to Surveying involves the study of the theory of Surveying, but the greater part of the work is actual practice in the field with surveyor's instruments. The students, after some elementary work run boundary lines, keep notes of all work, and then reduce their observations.

An outline of the work follows:

### TRIGONOMETRY

1. Trigonometric functions.
2. The right triangle.
3. Goniometry.
4. Logarithms.
5. The oblique triangle.
6. Practical problems with field work.

### SURVEYING

1. Study of instruments for office and field work.
2. Land surveying.
3. Triangulation.
4. Leveling.
5. Railroad work.
6. City surveying.
7. Plotting, blue prints, copying, etc.

**HIGHER MATHEMATICS** — Any one desiring may elect courses in College Algebra, Analytic Geometry, and Calculus.

## Department of Physics and Chemistry

MR. JAMES

MISS DAME

The general purpose of the courses in Physics and Chemistry is to familiarize the pupils with the most important machines, pieces of apparatus, and processes needed in the modern state. The first step in securing this result is bringing the pupils into touch with machines, many of them familiar to the farm boy of the last generation but unknown quantities to our pupils. The pupils are required to describe these machines and pieces of apparatus in their own language, their vocabulary being enlarged as the occasion requires. The final step consists in bringing the pupils to see how the laws of physical science are illustrated by these machines and processes.

A reasonable degree of dexterity in the elementary processes of Physics and Chemistry is required.

**CHEMISTRY** — The required work in Chemistry covers a period of two and one-half terms. The student begins the study in the Junior Year after completing such study of Physiology and Elementary Mathematics as may have served to introduce him to the principles of scientific thinking, preparing his mind for the reception of the more complex ideas involved. Recitation work is supplemented by lectures by the instructor on the more abstract parts of the subject discussed in the text. These lectures, or talks, enable the instructor to keep in touch with the student's progress and to lead him into the subject as the best text is not able to do. Regular hours are assigned for laboratory work and the student's note-book is written up and examined. The laboratory is newly furnished and supplied with modern conveniences. Each student is supplied with a desk and the necessary apparatus to pursue his studies. We require about twice as much laboratory work as is called for by the course of study adopted by the Principals of the Normal Schools.

The aim of this course is to give the student some concept of the large part which Chemistry is playing in

A Campus Party

In the Red Room

our industrial and social life, to impress on the student the value of the subject in bringing us in touch with the world's work in many fields, and to enable him to see the esthetic side of scientific truths. The fundamental character of Chemistry in Nature Study is made clear, and experiments are selected to aid him in teaching that subject. That Chemistry is a rapidly developing subject is kept in view, and references are made to its progress.

Supplementing the work in General Chemistry, is offered an elective course in Qualitative Analysis of unknown solutions of metallic salts, this work being continued until the student has mastered the methods employed for the detection of the Metallic Groups. The course is completed by analysis of dry salts, the methods of detecting non-metallic elements being best made clear by this means.

The work in Chemistry is concluded by a course in Quantitative Analysis, during which analyses of less complex rocks, alloys and ores follow quantitative determinations of simple salts by Gravimetric methods. This course

should be preceded by instruction in the Elements of Physics.

A student who has completed the work offered should be able to step into the field of Practical Chemistry, and some of our graduates now hold valuable positions in this line.

The courses in this department comply with the entrance requirements of Wellesley, Smith, Princeton and other colleges. Many of our graduates are teaching Science subjects in High Schools, while others hold good positions with industrial corporations.

PHYSICS — The course in Physics extends through the Senior Year. The aim is to cultivate a keen understanding and appreciation of common natural phenomena, and a deep sympathy for what is scientific in a scientific age.

The method used is to combine recitations with as much individual laboratory work as possible. Class demonstrations and practical problems in the different topics supplement and fix the theory. At least twenty-five experiments illustrative of fundamental principles are

Gymnastic Drill Under the Maples

In the Registrar's Office

required. The experiments are performed individually by the student and carefully recorded in special note-books.

The large and well-lighted laboratory has been planned and built along modern lines, and is equipped with new laboratory furniture and apparatus. The tables are provided with uprights and adjustable bars; and the apparatus comprises many costly pieces, while other pieces, though verifying fundamental laws, are yet so simple as to be easily duplicated by our graduates in schools lacking facilities, and in their teaching of Elementary Science and Nature Study.

Principal's Private Office

### Department of Natural Science

MR. TALBOT MR. MACCONNELL MISS EYRE

It is the object of this department to secure to the pupil the distinctive advantages which result from correct science study. These we believe to be the power to observe quickly, clearly, and comprehensively, and the ability to deduce legitimate conclusions from the observations thus made. With these ends in view, it is the aim rarely to tell the pupil what he can find out for himself by observation or experiment.

The whole department is now in quarters designed especially for this kind of work. The laboratories are completely equipped with up-to-date laboratory furniture. Much new apparatus has been added to all the laboratories, greatly increasing the value of the work done in this department.

#### GEOGRAPHY

##### *Courses:*

Geography A. Preparatory Year.

Physical Geography. Freshman Year.

Political Geography. Junior Year.

*Text Books:* Geography A - Maurey. Physical Geography.

The aim in Geography A is to give the student a general review of the facts of Mathematical, Physical and Political Geography sufficient to prepare him for the work of the Freshman Year.

In the "Book Room"

**PHYSICAL GEOGRAPHY** - The student takes up the study of Physical Geography in the Freshman Year. In pursuing the study, the fact is kept in mind that the majority of the students have as yet little if any knowledge of Physics, Chemistry, etc., and, therefore no attempt is made to burden their minds with those features of the study which they cannot grasp and understand. Yet, though the cause of certain important facts may be complicated as in the case with the atmospheric circulation; or, unknown, as in the configuration of the continents and in the uplift and depression of the lands; and the consequences of other facts may be indirect or remote; nevertheless, these facts are so inherently physiographic, that they are treated as fully as the circumstances will permit, leaving the more complex features for the student's later comprehension. In all this work, attention is frequently directed to the association of human conditions with the environment by which they have been determined, in order to form in the student the habit of looking upon the physical features of the earth in their relation to the progress and development of mankind.

During this term, sufficient time is put on Mathematical Geography to give the pupil a clear grasp of the elementary phenomena connected therewith.

The study of the text is illumined by such field work as is possible, by the use of pictures, diagrams, maps, globes, and the apparatus at hand.

**POLITICAL GEOGRAPHY** - The aim of this course is to ground the pupil thoroughly in the facts of Economic and Political Geography; to emphasize the importance of geographical environment and the power man has over his environment. Map-drawing is a constant feature of the work. The work is enriched, as much as possible, by pictures, specimens of various products of different countries, etc. Careful attention is paid to what might be called up-to-date geography, it being deemed worth while that the pupil should form the habit of keeping abreast of present geographical progress. The fact is kept

Principal's Secretary's Office

Girls' Hockey Squad

constantly in mind that Geography and History should closely correlate, and therefore, in the study of the former, the pupil's attention is called to many facts and features which will serve to throw light upon the study of the latter.

#### GEOLOGY

##### Junior Year.

*Text:* A Text-Book of Geology - Brigham.

In Political Geography we have studied the earth with regard to man's activities upon it — cities, farms, factories; in Physical Geography we have considered the earth as the home of man, and learned of its surface preparation for man's use; in Geology we go deeper, and study the origin of the world, its varying forms and its gradual evolution from primeval fire-mist to a stable foundation for man's multitudinous labors and investigations.

Science and Revelation unite in declaring the world to have been at first "without form, and void"; then that there gradually appeared the waters; then above these, lands arose to view; later came elementary life forms of plant and of animal life; finally, when all was ready, man, the master, entered upon his inheritance.

We first consider Geology physiographically, and review our Physical Geography study; then comes Lithological Geology, the examination of rocks and minerals and soils, their condition, structure and arrangement; next Dynamical Geology, treating of the causes of Geological events, of the forces which produce earth changes —

atmosphere, heat, water, life, etc.; finally, Historical Geology, when earth's pages have been scanned to learn of the successive time-stages when rock layers were laid, and plants, animals and man appeared.

**BOTANY** — In the study of Botany an amount of text-book work sufficient to give the necessary technical terms and fundamental principles is required. But the greater part of the work consists in a close study of the types of the most important orders. Special attention is paid to structure and function as affected by environment, and to the inter-relations of the animal and plant worlds.

Large tables have been placed in the classroom where the pupils may perform their dissection and analysis under the guidance of the instructor.

The student is required to collect, analyze, classify and mount a number of specimens of local flora.

Note-books are used in which the student keeps a faithful record of his observations and deductions.

**ZOOLOGY** — This biological subject is studied in much the same manner as Botany — recitation from text book; individual laboratory work, taking up the larger type forms; and field work.

Each student makes his own dissections, keeps a faithful record of actual observations in note-books, and mounts specimens collected from excursions in the vicinity. He is taught to infer habit from structure, and to see life relationships, and the economic value of our fauna.

1915 Baseball Team

A well-lighted laboratory, special tables, large tank for living material, aquariums for observing the early development of certain familiar animals, a cabinet of mounted specimens — all contribute to an interest and efficiency in the subject.

**HUMAN PHYSIOLOGY** — The study of Physiology is one term's work in the Preparatory Year and one in the Junior Year. This being the first science work which our students take up, it serves as an introduction to scientific methods of thinking and feeling. Our students have seen few scientific experiments performed and have performed still fewer themselves. The method of teaching to which they have accustomed is the didactic. These facts largely govern the mode of presentation. So far as the size of the class and the time available permits, the students perform the experiments themselves and draw their own conclusions. Here they are led to depend on their own eyes and fingers.

Rather more attention is devoted to the Chemistry of Physiology and to the subject of Hygiene than to Anatomy. In the lectures and talks by the instructor to the students, the attention of the latter is drawn to the experiences of the race in the matter of food, drink, and raiment; and they are led to attach importance to the lessons which the race has learned in these matters. In all the work the cheerful sides of Physiology and Hygiene are emphasized and the morbid sides kept in the background.

## Department of Latin and Greek

MISS BODINE MISS CRAFTS MR. JACK

The number of students preparing for college has steadily increased during the last few years. Vassar, Wellesley, Mt. Holyoke, Lafayette, Washington and Jefferson, Westminster, State, Michigan, Cornell and other colleges, receive students upon our certificate.

**LATIN** — The Roman pronunciation is used.

In the Freshman Year, three terms are spent on Smith's Latin Lessons. There is constant drill in the Latin forms and inflections, and in the general principles of Latin syntax. It is desired that the student have a good knowledge of English before taking up this branch, since the idioms of the two languages are constantly compared.

In the Sophomore Year, three terms are devoted to Books I-IV, of Caesar. Here, in addition to the literal and free translation of the text, there is constant drill in the derivation of words, and in the use and force of the cases, the modes, the tenses, the principles of indirect discourse, the periphrastic conjugation, etc. Some time is spent in a careful study of Caesar's life and of the Roman life of his time.

In the Junior Year, the same method of study is continued, making six orations of Cicero the basis; four against Catiline, Archias, and Manilian Law. The life of Cicero is also studied, together with the occasion of the delivery of each oration, and the historical facts connected

Girls' Snake Dance before the State College Game

with each. One lesson a week is devoted to Latin composition.

In the Senior Year, Books I-VI. of Virgil's *Aeneid* are read. Besides the drill on the usual grammatical constructions, special attention is paid to the constructions peculiar to Latin poetry, to figures of speech, and prosody (metres and versification). The attention of the student is called to the fundamental difference in the character of English and Latin poetry. The mythological characters, the life of Virgil, and Latin composition are also studied.

SUMMARY

*First Year.*

1. Elements of grammar and vocabulary of at least 500 words — thorough preparation to read Caesar.

*Second Year.*

2. Four books of Caesar, with close attention to grammar and Roman history of the period.

*Third Year.*

3. Cicero; six orations, with special attention to composition and English derivatives.

*Fourth Year.*

4. Virgil, six books; Composition; special attention to Mythology and poetic forms.

**GREEK** — It is the aim not only to implant a thorough knowledge of the forms and principles of syntax, but also by means of reading at sight and other exercises, to enable the student to use the language in a practical way. In this way the student comes to look upon Greek, not as a "dead" language, made up of a mass of forms and rules, but as a legacy of a cultured people.

The reading of the Greek authors includes Xenophon's *Anabasis* and Homer's *Iliad*. If desired, other authors may be studied. In connection with these, the history and customs of the Greek people are studied. Pearson's *Greek Prose Composition* is also used.

Preparatory students are given the amount of Latin and Greek required by the institution to which entrance is sought.

**Department of Modern Languages**

MISS LOEWENSTEIN

MISS BAUMBACH

English is the most widely spoken language of the world. German follows a close second, and French stands fourth in this comparison. German literature contains some of the most scholarly works of the present and past. It is noted for its philosophic thought and scientific works. The merits of the French language lie in the beauty, elegance and precision of expression. He who masters this tongue has access to some of the choicest literature.

What is gained by the study of a foreign language? Would a student not profit more by devoting additional time to the study of his vernacular instead of spending it on a language which he will perhaps never have occasion to use? The translation of any language requires a student to use his native tongue and thereby he becomes skilful in the use of it. The characteristics of a people's thought and nature are expressed by their language. A man becomes a German in so far as he masters the German language. The study of foreign languages enriches the spiritual nature of man.

The object of this department is to give the student an introduction to German and French. Special attention is given to the salient points in grammar and the practical use of the spoken and written language. From the start the students are encouraged to converse in the foreign language they are studying and to write original prose compositions, in order to make their course in modern languages as practical as possible. On the average one lesson a week is conducted as a club-lesson. During this time the students play games, discuss current events or are shown reproductions of famous pictures in European galleries. For this purpose the students subscribe for the German magazine "Aus Nah und Fern" and for the French magazine "Choses et autres." The students are also encouraged to read some article in such foreign weekly publications as "die Woche" or "l'Illustration"

A Leaf Fight

at least once a month and to be familiar with such essays in the National Geographic Magazine as deal with France or Germany.

In the first year particular emphasis is laid on pronunciation, conjugation of verbs and on the essential principles of syntax. The second year's work consists of composition, advanced grammar and extensive reading. Poems of the best writers are committed and some time is devoted to exercises in dictation. The drill in conversation is based on the text used in class. These remarks apply to both languages.

The first year of German or French may be used as a substitute in the Junior Year; the second year's work may be substituted in the Senior Year.

*French Texts:* First Year: Guerbers loutes et Legendes; Talbot's conversational French Reader. Second year: Fraiser and Squair's Grammar (for reference); Malot's Sans Famille; Halevy's Un Mariage d' Amour; Audoux' Marie Claire; Daudet's La belle Nivernaise or their equivalents.

*German Texts:* Becker Rhoades' Grammar; first year reading: Allen's Daheim; Bacon's Im Vaterland; Price's Reformlesebuch; Till Eulenspiegel. Second year reading: Schrakamp's Deutsche Heimath; Wildenbruch's Edles Blut und der Letzte; Spielhagens Skelett im Hause; Freytag's Journalisten or Minna von Barnhelm (Lessing) or Schiller's Wilhelm Tell, or their equivalents.

### Department of Agriculture and Manual Training

MR. JACKSON

"At the head of all sciences and arts, at the head of all civilization and progress, stands not militarism, the science that kills, not commerce, the art that accumulates wealth, but agriculture, the mother of all industry and the maintainer of human life."

The course in agriculture is designed to prepare the students for teaching in the public schools. Methods of

A Campus Stroll in Spring Time

On the East Veranda

presenting the subject are explained and many exercises are given which may be used in their work.

Practical work in the vegetable and flower garden is required. Field trips to farms are taken in order that the student may become acquainted with the regular work of the farm.

#### I. Course.

The nature of plants.

Roots, stem, leaves, flower, fruit, seeds.

Propagation.

Seed, bulb, bud, graft, cuttings.

Soils.

Origin, kinds, humus, moisture, drainage, tillage, improvement, fertilizers, manures.

Farm Crops.

Cereals.

Corn, wheat, oats, rye, barley, buckwheat.

Forage.

Grasses, alfalfa, clovers, vetch, peas.

Tubers.

Potato.

#### II. Course.

Domestic animals.

Horse.

Types of horses, breeds, care, age, feed, diseases, and remedies.

Cattle.

Types, breeds, care, feed, diseases, remedies, milk, testing of milk, cream, and butter.

Sheep.

Types, breeds, care, feed, diseases.

Swine.

Types, breeds, care, feed, diseases.

Poultry.

Types, breeds, housing, feed, incubators, brooders.

Girls' Suite in First Annex

### III. Course.

#### Fruits.

Apple, pear, peach, plum, cherry, and small fruits.

#### Forests.

#### Garden.

Cabbage, celery, onions, lettuce, radish, beets, carrots, cucumbers, melons.

#### Farm management.

The choice of a farm.

Location of buildings.

Buildings.

Arrangement of fields.

Rotation of crops.

Farm records and accounts.

Manual Training is not, as some suppose, a study of the elements of certain trades; but a good course in Manual Training is invaluable as a preparation for any trade or profession. The object of the student in Manual Training is not so much to learn how to perform certain operations as it is to think and modify knowledge from any source and adapt and apply it to the work in hand in a practical and efficient manner. It is only those who can apply this knowledge thus that have received a satisfactory educational training, and the demand for this class of people as teachers and in all other lines of activity is greater than the supply.

The course in Manual Training requires the construction of such objects as will give the student a broad knowledge of the principles involved in wood construction and finishing. Each student is furnished with a blue-print of the object to be constructed, thus correlating by application his Mechanical Drawing and Manual Training. After having satisfactorily completed the prescribed course of study, students are allowed to construct one large article of furniture, such as a table, a taboret, a magazine rack,

a music cabinet, etc., particular attention being given to the matter of original design and workmanship in construction and finishing. The educational value of Manual Training is kept constantly in mind as the chief end and aim of the subject.

The course in Basketry is designed to prepare the student for teaching in the public schools. It consists of both raphia and reed work. The students are required to finish baskets in the Navajo, Lazy Squaw, Maraposa and Samoan weave. In the reed work, a napkin ring, mat and two baskets are required. Special attention is given to design.

### Department of Household Arts and Science

MISS HUNT

MISS HOFFMAN

"The secret of thrift is knowledge. Knowledge of domestic economy saves income. Knowledge of sanitary laws saves health and life."

The home training of the daughter is one of the present day problems. During the public school period her mind is so occupied with school and school interests that there is little time or energy left for the practice of home duties. Without doubt our girls should learn to keep house; but how? When? All the education that is given them is inevitably for one purpose, home-making, and yet many of them never get an opportunity to study this all-important subject. In consequence they do not realize its importance and grow to dislike it. This very lack of ability to grasp the home-making problem is a cause for a large proportion of the unhappiness and discontent of their future lives.

The course offered in Household Science and Arts at the Indiana Normal School tends to cultivate an enthusiasm for home-making and to elevate it to its rightful place as the highest and noblest of the Arts.

Girls' Room in the New Annex

A Tea Party in a Girls' Room

The regular course is divided into three parts — Cookery, Sewing and the House Course.

**COOKING** — The aim of this course is to give the student the principles of the selection and preparation of food, a study of protein, carbohydrates, and fats, with the effect of heat on them and ways of cooking them; a study of meats and vegetables, with a comparison of animal and vegetable foods and ways of preparing and combining them; the cost of food in relation to its composition; different functions of food in the body; laboratory work involving all the common processes of cookery, with the preparation and serving of simple meals.

“Sewing is a subject which embodies many phases of a science and art especially relating to a woman’s sphere.”

**SEWING** — The aim of this course in sewing is to give practical understanding of the uses of the various stitches and seams through the making of simple articles by hand. Machine work is begun on simple articles which will give practice in straight stitching. The course is given with teaching methods preparing the student to teach a simple course in sewing in public school work.

**THE HOUSE** — A brief study of early human habitations and a comparison of the homes of those people with the homes of to-day.

The development of the American home; reasons for the changes which have taken place and are taking place; the effect of changes on home life.

Some problems involved in the building of a modest house: (a) the selection of the site, soil, drainage, surroundings, accessibility, improvements; (b) the drawing of house plans adapted to the site; (c) the cost and relative value of building materials; (d) the construction of the house, cellar, foundation, walls, and roof; (e) heating, lighting, and ventilating; (f) the plumbing system of the house.

The decorating and furnishing of the house considered as to sanitary value, artistic value, quality and cost.

**SPECIAL TWO-YEAR COURSE IN HOUSEHOLD ARTS AND SCIENCE**

In the past few years there has been a constant demand for a special course in this department. We are now offering a two years’ course in Home-making. This course prepares the student to plan and care for a home with economy and intelligence, and to meet the problems arising in the administration of the home with a knowledge based upon actual experiences. Teaching methods are incorporated throughout the course as far as seems practical. The entrance requirements consist of a diploma from a three or four-year High School, or credits equivalent to this diploma.

A diploma will be granted to those who complete the following subjects.

**DEPARTMENT OF HOUSEHOLD SCIENCE AND ARTS**

Indiana is unique in offering to her girls a place to make candy and to cook to their hearts’ content. This room is divided into two parts, a kitchen and a dining-room.

Just Fun

On the East Veranda

The kitchen is admirably equipped with an up-to-date combined gas and coal range and all the utensils needed for good cookery. The dining-room is separated from the kitchen by screens. This room is tastefully furnished in mission. The china closet contains a complete set of dishes and all the articles needed for a well-set table. This so-called Candy Kitchen has been an important factor in training the social and hospitable side of the girls' nature.

Sewing Circle in a Teacher's Room

## Department of Physical Training

MISS EYRE

Four terms of this work are required. During the winter term, all of the young women living in the dormitory are required to take Physical Training.

The aim of this department is three-fold: educational, hygienic, recreative. The course is outlined to prepare students to teach this subject in public schools.

The work consists of indoor and outdoor exercises. Indoor work includes running, military tactics, drills with hand apparatus, esthetic and folk dancing, gymnastic games and basketball. Hockey, basketball, tennis and field athletics are enjoyed on the campus.

The basketball team is a feature of this department. They play a number of games with other schools during the season. The girls composing this team, for the past year, were the undisputed champions in Western Pennsylvania.

The young ladies and gentlemen meet in classes weekly for dancing lessons, where all the standardized, modern dances are taught.

### Foreword

"Art is not a thing having a separate existence; it is not merely a costly exotic, cultivated only by the wealthy few, and intended to please a narrow circle of highly refined people, not this, but a blossoming of the universal nature of man, a natural outcome of every age, every stage of civilization, every condition of life."

## Courses

### Four-Year Normal School Course

The main purpose of this course, as provided by the State, is to train teachers to teach drawing in the grades and to prepare them to work understandingly and sympathetically with a supervisor of drawing; to cultivate the faculties; and to cultivate an appreciation of the beautiful.

#### Course of Study

SECOND YEAR. 100 PERIODS (TWO TERMS)

#### I. Pictorial Representation.

1. Nature Study.
  - (a) Plant life.
  - (b) Landscape.

2. Still Life.
  - (a) Study of type forms.
  - (b) Application of type forms.
  - (c) Perspective.
3. Figure and animal sketching.
4. Artist study.

#### II. Composition and Design.

1. Principles.
2. Application.
  - (a) Book cover.
  - (b) Bowl or plate.
  - (c) Bag or scarf.
3. Simple printing.
4. Historic ornament.

SENIOR YEAR. 50 PERIODS (ONE TERM)

#### I. Large studies for school room use.

#### II. Methods.

1. Grade outlines.
2. Observation and criticism.
3. Consultation.
4. Picture study.
5. Materials.

#### III. History of Art.

1. Architecture.
2. Sculpture.
3. Painting.

### Normal Art Course

TWO YEARS (SIX TERMS)

"Teachers having a superficial grasp of the principles governing art education, ready to float hither and thither as the current leads them, should not be given power to try experiments on children, thus exerting not only a harmful influence upon the individual but indirectly upon his environment as well."—*Walter Scott Perry.*

The aim of this course is to train teachers to teach and to supervise the teaching of drawing and the applied arts in the grades and in High School; to cultivate the faculties; and to cultivate an appreciation and a desire for the beautiful.

South Entrance of Boys' Dormitory

*Conditions of Admission* — Graduates of a state normal school are admitted without condition and may be able to complete the course in one year. Graduates of a four-year High School course are admitted to the Junior Year and graduates of a three-year High School course are admitted to the second year of the regular Normal School Course. Students having completed this second year may be admitted to this course. Teachers of experience may be admitted and be conditioned in the branches that have not been satisfactorily completed by such students. Credit may be had for any subjects in which the student passes a satisfactory examination. Students in the Normal Art Course are strongly advised to complete the regular Normal School Course.

### Course of Study

The work requires from five to eight periods a day and includes the Pedagogy and English of the Junior and Senior Years of the regular Normal School Course — Botany, Plane Geometry, Mechanical Drawing, Basketry, Manual Training, History of Painting, in addition to the following:

Methods, observation and practice in teaching under strict supervision and criticism.

The planning of a course of study in Drawing and the Applied Arts for the grades and High School.

**THE APPLIED ARTS:** — Elementary book-making and cardboard construction, weaving, netting and knotting, and leather work.

Advanced drawing (two periods daily throughout the course). This includes nature work in the different mediums, freehand perspective, pencil sketching, light and shade, still life, modeling, lettering, historic ornament, figure drawing, interior decoration, costume designing, design and composition, wood block printing and stenciling.

### Advanced Drawing Course

TWO YEARS (SIX TERMS)

The work of this course constitutes a part of the Normal Art Course but is open to special and regular students of the school who have completed the elementary drawing or an equivalent, and who desire a term or more of advanced work; as well as to those students who wish to complete a course without the professional requirements. Students may be admitted at the beginning of any term.

## The Normal Conservatory

### Introductory

The Normal Conservatory is designed to offer to its students the best possible instruction in music and allied subjects, and for this purpose has assembled a faculty and equipment of the highest order. The members of the faculty have had thorough training under the leading pedagogues of Europe and America, and are especially qualified as teachers.

The Conservatory employs in its work thirty upright pianos, three grand pianos, and a large organ. These instruments are in constant use for teaching and practice. A large concert grand made by Steinway and Sons is provided for recitals.

### Plan of Instruction

Instruction in voice or any instrument will be given in classes of two, each class covering a forty-five minute period, and the time being divided equally between the two students. This affords the student not only ample individual instruction but an opportunity to observe the work of another student. This is a source of inspiration the value of which it is impossible to overestimate.

### Courses of Study

REGULAR COURSE — This is a four-year course leading to graduation and a diploma. The student may choose as a major subject, Piano, Organ, Voice, Violin, or an orchestral instrument, receiving in this subject two lessons

Girls in Gymnastic Drill

per week. The other work of the course consists of theoretical musical subjects, languages, history and teaching methods, designed to fit the student for a successful life work as a professional musician.

**PUBLIC SCHOOL MUSIC COURSE** — This course trains the student to fill a position as Supervisor of Music in the Public Schools. It extends over a period of two years, covering Voice, Piano, Theoretical Subjects, and especially the Pedagogy of School Music. The Normal Conservatory has an exceptional advantage to offer in this course because of the large Model School which is a department of the Indiana Normal School. There are nearly three hundred children in attendance at this school, divided among nine grades. The Seniors in the Public School Music Course

teach music in these grades under the direction of the head of the Department. At least one period per week is devoted to criticism and suggestions for improvement. The student is thus given practical experience in the profession which he has adopted.

The course in Public School Music is difficult and only graduates of four-year high schools are admitted. The most desirable students are those who have had some experience as teachers in the Public Schools.

**SPECIAL STUDENTS** — Students desiring to take lessons in any musical subject may enter the Conservatory at any time, paying the rates stated in the catalogue for such work as they wish to pursue.

### Expenses

For a Statement of Expenses in the Conservatory, see index.

### Special Catalogue

A Special Catalogue, describing in detail the Conservatory and its work, will be mailed upon application to the Director. Any additional information will be gladly furnished. Inquiries should be addressed to

### Foreword

Successful men and women of every calling in life recognize the advantages of a thorough business education. To those who intend to pursue an active business career, such training is an indispensable aid. For this reason, and in order to furnish teachers for business departments in high schools, the commercial department was added to our school several years ago. Its object is to instruct young men and women in the laws, customs and forms of business; to cultivate in them habits of neatness, accuracy and thoroughness of work; to familiarize them with practical business problems, and in every way possible prepare them for successful business careers. The teachers are of the regular school faculty and are specialists in their several lines.

"Bookkeeping and Accountancy" and the accompanying budget systems, by H. M. Rowe, Ph. D., are taught. This system is a radical departure from the ordinary

methods of teaching Bookkeeping. The student learns nothing which he will be asked to forget when he secures a position. He takes up the work of a bookkeeper at the first, keeps the most practical books of original entry, is advanced step by step until he has acquired a thorough knowledge of the duties of a bookkeeper, thoroughly understands the principal accounts in all their applications, is proficient in all the calculations pertaining to his position, and has secured what may be termed a thorough knowledge of Bookkeeping.

After mastering the elementary budgets, a student who wishes to specialize in such work as Farm Accounting, Lumber Accounting, Cost Accounting, and so forth, may do so.

After completing the work in Bookkeeping, the student is given a course in American National Banking, budget C of the H. M. Rowe series. A complete exposition of American National Banking as it is practiced is offered and the student performs all the duties of the various officers of the bank, the Cashier, the Assistant Cashier, the Teller, the Discount Clerk, the General Bookkeeper, the Individual Bookkeeper and others.

After the student reaches advanced Bookkeeping, he is permitted to use the Burroughs Adding Machine in certain operations and is taught the various uses of this most necessary of modern office appliances.

In the Shorthand and Typewriting Department it is our aim to prepare students for such duties as every stenographer must perform, whether employed as an amanuensis, private secretary or reporter. In every line of employment — commercial or professional — there is an active demand at all times for good stenographers. No other profession offers so many opportunities for the ambitious young man or young woman to advance to positions of influence. All that is necessary to enter upon

A Class in Typewriting

this line of work is the requisite preparatory training which we aim to provide here.

We teach Graham Standard Phonography. Nearly half the professional shorthand writers in the United States write this system. Its superiority over all the "easy to learn" systems lies in the fact that the student may push to any desired rate of speed. Many inferior systems, so widely advertised today, are adequate only for certain limited requirements of amanuensis work, where speed is not essential. After mastering thoroughly the scientific principles on which Standard Phonography is built, even indifferent penmen are able to follow the utterances of the most rapid speakers.

Up-to-date filing systems are taught in this department, and our students will go out well prepared to meet

any requirement in this important branch of business training.

#### Time Required

Our commercial Courses are longer than those of many business schools but we believe that fundamental to a successful business training, is a thorough common school education. Those who are deficient in this respect enter the classes in Grammar, Composition, Civil Government, United States History, Geography, Spelling, Arithmetic and so forth, along with the students who are taking the regular normal course, and are required to do the same work in these branches as those who have to pass the State Board Examinations. Special examinations are given in these branches, and students need not take such studies in class as they are able to pass in this way.

The "PS" Have It

Johsties Tackling Wickerham of East Liberty Academy

## Some Advantages of Taking a Commerical Course at Normal

In addition to the splendid equipment of the Department itself, Commercial students of Indiana have many advantages absolutely unknown at the great majority of business schools. They have access to the large Normal Library and Reading Room. The latter is equipped not only with all the leading magazines and daily city newspapers, but also with the weekly publications from the home towns of many of the students. Commercial students are always welcome additions to the literary societies, debating clubs and Christian associations of the school. Socials, lectures, concerts, plays, etc., provided by the Normal School are at the disposal of the Commercial students. Many young men who come to Indiana for business

courses, in addition to securing the business training for which they come, develop into great athletes. Our expert coaches always find the earnest, hard-working Commercial students a splendid body from which to build up their great football, baseball and track teams.

*Music*—Students taking the Commercial Course have an excellent opportunity to take voice culture or instrumental music along with the Commercial work. Many students do this.

*Lectures*—It has become a part of the settled policy of this Institution to give to its pupils the opportunity to hear in their own halls lecturers of eminent ability on subjects supplementary to the regular work, or of universal interest.

#### ELECTIVES:

First Lessons in Finance, History of Commerce, Elements of Transportation, Cost Accounting, Auditing, Farm Accounting, Lumber Accounting and other special systems, or any subject on the regular Normal Course.

#### ADVANCED STANDING:

Graduates of four-year high schools will be granted advanced standing upon presentation of their credits, properly certified by the principal or president of the board, of the school from which they are graduated. Others will be given advanced standing upon passing a satisfactory examination in any of the subjects in the course.

Prof. Gordon Teaching

*Influence* — It pays to attend a school that is widely and favorably known, for much of the future success of the student depends upon the character and influence of the school from which he is graduated. An Indiana Diploma is a passport into the best positions of the State.

#### Positions

We do not guarantee positions to graduates of our Business School, but we are watchful and zealous in our efforts to place them as soon as they step out of the school. At the present time we are unable to supply the demand for our graduates, and we do not doubt that this condition will continue.

#### Detailed Information

If you desire to know more of the work done in our Shorthand, Bookkeeping and Banking Department, address J. E. Smith, Head of Business School.

#### Special to Teachers

At the present time there is a great demand for trained teachers of Bookkeeping, Commercial Law, Shorthand, Typewriting and other commercial subjects. This demand is constantly growing and we wish to place special emphasis upon the opportunity offered in this field to young people with the requisite elementary training. The salary of a commercial teacher is usually much better than that of teachers in other branches of the profession.

We particularly call attention to our Commercial

Teachers' Training Course, organized several years ago, especially to prepare teachers to teach the commercial subjects. We are continually asked for graduates of the regular Normal Course, or of good High School Courses, who have prepared themselves as Commercial Teachers. The work is fascinating and the salaries range from \$75 to \$125 per month. In a great many cases, even much higher salaries than the last mentioned are paid.

*Tuition* — The tuition for either one of the Commercial Courses is the same as for the regular Normal Course and may be found under the heading "Statement of Expenses," elsewhere in this catalogue.

*Free Tuition* — Is granted to all students over seventeen years of age who promise to teach for two years, either commercial or other subjects, in accordance with the provisions of the law. Commercial students who avail themselves of this opportunity are charged fifty cents a week for the "State subject" which the law requires them to take, inasmuch as this "State subject" is not included in the Commercial Courses.

The extra charges for shorthand and typewriting, as given in the "Statement of Expenses," are not intended for students who are taking either of the Commercial Courses, but are extra charges for students who are taking one or both of these studies in addition to the regular Normal Course.

### Scope and Function of the Training School

The training department consists of a school of about two hundred and fifty students. These are carefully divided into eight grades corresponding to the grades of the most approved elementary schools of the country, and an advanced class composed of those who have completed the regular Model School Course and are prepared to take up the work of the Preparatory Year.

The regular work of the school is systematically supervised by trained and experienced critic-teachers. They are responsible for the progress of the children and the training of the pupil-teachers. The special work in music, drawing and manual training is under the direction and control of specialists in these branches.

Wilson Hall, a modern building and one of the most attractive on the campus, is given over entirely to the use of this department.

All the work of the pedagogical department centers in the training school. Its purpose is to afford the members of the Senior Class an opportunity to put into practice the principles of education which have been emphasized throughout the entire course, to send them out with a very practical knowledge of the theory and art of teaching, and with the confidence and judgment which arise from actual experience in the school-room.

To this end each candidate for graduation is required to teach at least two terms satisfactorily in the Model School. The work is so arranged that experience is gained in both the primary and grammar departments.

Students begin their observation and practice work in the Senior Year. A class numbering from fifteen to twenty children is assigned to each for a period of twelve or fifteen weeks. The Seniors then report to the critic-teacher to whose department their work belongs. Instructions are given with regard to the general management of the class, the work to be covered, use and care of materials, methods to be employed, hours for criticism, and the various duties incidental to the actual teaching.

The pupil-teachers are required to write out plans for the daily lesson. These plans are submitted to the critic-teachers and are carefully examined and corrected the day before the lesson is presented. They are written in accordance with the following outline:

- |                   |                              |
|-------------------|------------------------------|
| *I. Aims.         | II. Illustrative Material.   |
| <i>a</i> General. | III. Basis.                  |
| <i>b</i> Special. | IV. Subject Matter — Method. |

The plans should show most clearly that the teacher understands the child, his interests, capacity and limitations. They should show that she understands the subject to be taught and the end and aim in presenting it. They should

\*See McMurry's "Method of Recitation."

A Lesson in Penmanship

indicate that she is acquainted with the child's past experience and properly appreciates his fund of ideas. Fertility in illustration and device, skill in questioning and thoroughness in drill should mark both plan and presentation.

Seniors who are teaching are required to meet their critic-teacher for general criticism one period a week. In this criticism class, general topics relative to the work are discussed, general mistakes are noted, reading along professional lines is assigned, and the various problems of the school-room are talked over.

In addition to the criticism class, appointments are made for individual criticism, the critic-teachers reserving Saturday afternoons and the hours between 3:30 and 4:30 each day for this purpose. At these times, criticism may be more pointed and personal. The endeavor will be to establish such a relation between the pupil-teacher and the critic that errors and faults may be discussed most freely and without any misunderstanding as to motive. It is, however, as much the duty and desire of the critic-teacher to discover and develop latent power and ability as to note and correct faults in personality and pedagogy.

### Reading and Literature

The general aim in the subject is to give the child the power to interpret the written or printed symbols by which thought is conveyed, to arouse an appreciation of what is best in literature, to awaken the desire to read, and to train him to give out the ideas thus obtained with correctness, clearness, and the right kind and degree of feeling. A proper conception of the aim of instruction

in this branch determines the method to be employed and the material to be used.

In the lower grades the teacher must of necessity concern herself to a very great extent with the mechanics of reading, the problem of teaching the children to recognize words in groups. To this end a combination of the word, sentence and phonic method is used, the sentence being regarded as the unit of thought. Phonics are introduced gradually, chiefly as a means of making the child independent in mastering new words, and in affording exercises in correct enunciation.

The first reading lessons are based largely upon Nature Study and upon the poems and stories used in the language lessons. They are chiefly the expression of the child's thought along these lines.

Nursery rhymes, fairy tales, stories of adventure, Greek, Roman and Norse myths, English and American History stories, and the best poetry that the field of literature affords, are the sources from which materials are drawn throughout the course.

It is not enough that the children pronounce the words correctly and with ease; they must comprehend the thought, they must feel its force and significance, they must enter into the life and ideals of the great minds of the world. With them they must dream — with them they must create.

The selection of material to be used in the various grades is made with care, in order that it may be suited to the interests and capacity of the children, and to the other studies which they pursue. No attempt is made to

A Teachers' Room in New Annex showing a "Built-in-Bed"

force upon them literature which is entirely beyond their ability to understand and enjoy. Their development in taste and power to interpret is natural in all senses of the word. Every selection used is elevating in its influence and has in it something which appeals especially to the nature of the particular children to whom it is presented.

The children are encouraged to read outside of school. Books, papers and magazines are provided for their use. Quite a broad course of supplementary reading is planned for each grade, and special periods are set aside in which the teachers read to the children, stories and poems which are profitable and interesting.

In oral reading care is taken to see that the children speak clearly, in a pure tone and pleasing manner.

### Language

Only through an exercise of the power of expression which the child already possesses will he gain additional power in the correct and pleasing use of his mother tongue and in the world, social and commercial, perhaps no faculty contributes more than this to success.

Illustrative lessons are given frequently by the critic-teachers. These are observed closely by the Seniors, who should be prepared to take part in a discussion concerning them in the criticism period.

In directing the special work of the school, such as the observance of Thanksgiving, Christmas, Washington's Birthday and Arbor Day, the Seniors are expected to take active part when called upon. Training along this line is invaluable.

The first step in developing expression is to arouse thought and awaken ideas. To this end all the subjects of the school curriculum may be employed and all of the occupations and activities of the school-room and playground should be made to contribute. The entire world of childish experience and knowledge may be drawn upon for the materials for language training.

It is, however, through long sustained effort and practice under "never ceasing watch and correction" that the art of correct speaking and writing is obtained. It is the duty of the school to afford this practice and to exercise this surveillance in order that there may be a development of the power to speak without effort and with freedom from grammatical errors, popular slang, and the crude provincialisms to which the average American is prone.

For the reason that oral speech is used to the greatest extent, oral language training should predominate. Each teacher in every recitation will prove herself an efficient ally of the language teacher if she will insist upon good English in response to every question asked. The result will be manifest in the formation of right habits of speech. In fact, this is an imperative condition to the accomplishment of the aim of the school in this direction.

The course of study indicates the general character of the work. The lessons may be divided into three classes — conversational, formal and written. In the Seventh Year the study of English Grammar is begun.

In the conversation lessons the pupils are required to reproduce stories which they have heard or read, to

Sketching from Life

describe places which they have visited, to narrate adventures in which they have taken part, or to enter into discussion or debate on some question of interest to them as individuals or as a school. The impromptu dramatization of stories leads to a vigorous style and is a splendid means of arousing the imagination and increasing the child's vocabulary.

The written exercises are frequent but short. A child loses interest and zest if he is required to write too much. He becomes fatigued and as a result does careless work, thus defeating the purpose of the lesson. Nearly all written exercises are done in school under the watchful eye of the teacher. In the lower grades sentence work only is required; gradually the pupils gain the power to reproduce the stories of the reading and literature lessons, and to write up the accounts of the imaginary journeys in Geography. They keep a journal, a weather record, a notebook for their observations in Nature Study and their themes in History. Finally they arrive at the stage of original composition. No slovenly work is accepted. Little re-writing is permitted. The first draft must represent the best effort of which the pupil is capable.

Formal Language lessons are few in number. Under this head the dictates of custom in punctuation, capitalization and sentence structure may be considered.

Although the study of grammar is deferred until the Seventh Year, the more common Grammatical terms may be used freely as occasion requires much earlier in the course.

### Nature Study

The work in Nature Study is based on the child's observation and experience. All reading that is done in connection with this subject follows, not precedes, original investigation.

The materials are the every day natural surroundings of the child, seen so far as possible in their natural environment. In determining the order of subjects and the methods followed, the teacher should be guided very

largely by the season of the year and the stage of the development of the pupil.

The purpose of Nature Study may be stated briefly as follows:

It develops the perceptive faculties, strengthens the imagination and develops the reflective powers.

It aims to cultivate the esthetic sense.

It gives "an insight into the laws of Nature and teaches the child to make use of these laws in answering his reasonable needs."

It inculcates moral and spiritual lessons, leading to greater sympathy, kindness and consideration for others.

### Geography

"Geography is the study of the earth as the home of man." In presenting the subject the teacher should choose topics which will lead the pupil to see how races and people have been affected by natural environment, and how natural conditions have been and may be changed and modified to best serve the interests of mankind.

The method chosen should be one calculated to develop the power of reasoning from cause to effect, the ability to see relations, and the faculty of correct judgment. In this subject, as perhaps in no other, is there an opportunity to add to knowledge, to give breadth of thought, a wider experience, greater tolerance and liberality, and therefore a more profound culture.

### History

The outline which follows later indicates the scope of the work on this subject. The presentation should be original, broad and vigorous. The great lessons drawn from a consideration of the records of past events should find expression in the life and conduct of the citizens of the future. "It is the aim of History instruction to socialize a child; that is, to make him more regardful of the interests of others, less stubborn and isolated in his individuality; that is, less selfish."

Basket Weaving

Foot Ball Squad. They won every game of the season except one when the score was "nothing-nothing." They were scored against but two times

In the lower grades the lessons in History are presented in story form. The children are required to reproduce what has been told and to exercise their thought power at every possible opportunity. In the Seventh Grade the more formal study of History is begun.

In all grades the children are required to study maps in connection with this subject. They are required to sketch freely, to indicate movements of armies, and to locate places of historical interest.

Supplementary reading is provided, the teacher drawing upon the best literature for incidents and descriptions which will make the lessons vivid and impressive. Pictures are used to show the mode of dress and the manners and customs of the people of different periods.

Much attention is given to the details of the development of civilization, and strong emphasis is placed upon the industrial, social and moral relations of mankind.

#### Arithmetic

"Unless there is to be arrested development, when the child enters school, some function must be found with reference to which he may utilize his ability to count — the number sense becomes vitalized and truly educative, at this point by being largely directed towards the definition of values in the form of measurements."

The work in the lower classes is very largely objective and many illustrative devices are used. Stress is placed upon fundamental combinations and processes. These

must be thoroughly mastered, as they constitute the foundation upon which the entire superstructure of mathematics rests.

Oral work is prominent in all grades. It includes the development of definitions, processes, and forms and exercises in reasoning and determining results with accuracy and rapidity. All work of this kind is reasonably simple and of such nature as will be suggested by the interests and demands of daily life. The teacher must see that all statements made by the children are in clear, smooth and correct English.

In all the written work sufficient attention must be given to forms of expression to insure accuracy in thought, and to teach the importance of system and neatness. There must be a constant stimulus to accurate, rapid and independent work.

It is not deemed necessary to spend any great amount of time upon "over-difficult and complicated problems and obsolete topics not needed in modern life," but every possible application should be made to existing conditions — industrial, governmental, commercial and social.

#### Spelling

Every class is a Spelling class in the sense that the teacher of each subject should see to it that the pupils spell correctly the important words used in each lesson. Oral Spelling should precede written exercises of any nature in order that the children may be prevented from

Girls' Basket Ball Squad

writing words incorrectly and thus becoming impressed with wrong forms.

“Every effort is made to safeguard the child against a wrong first impression and incorrect learning of the word. If a home lesson is assigned it is not a mere mapping out of the number of words to be learned; the assignment is an exercise in which the teacher uses all his foresight in anticipating the various kinds of troubles the child will meet, focusing the attention on special difficulties and suggesting modes of self-instruction. The modern spelling exercise may test the child's knowledge, but its primary function is to instruct rather than to examine.” — *Suzzallo*.

Training School Children at Play

## Course of Study in the Training School First Year

### READING

1. The sentence is the Unit of Expression. Think the sentence as a whole.
2. Emphasize the unit.
3. Analysis of Sentences into Words.
4. Analysis of Words into letters and sounds.
5. Reading as a thought process.
6. Dramatization.

*Tests:* The Aldine Primer; The Arnold Primer; The Holton Primer; Cyr's Primer; The Progressive Road to Reading; Stepping Stones to Literature; Sunbonnet Babies; Cyr's Dramatic Readers; Mother Goose Melodies (Dramatized by children).

### PLACE WORK

In the first two grades no special period is set apart for Geography, but all necessary ideas, as direction, points of the compass, location, seasons, prevailing winds, etc., are taught incidentally with Nature and Literature. Field lessons afford opportunities for observing Land and Water forms, which may be reproduced on the Sand Table.

### NATURE STUDY

- September — Plant life; Insect life.
- October — Leaves; Seeds; Special Animal.
- November — Harvest; Thanksgiving.
- December — Evergreens; Frost, Ice, Snow (beauties of Nature).

Girls' Room in New Annex

March — Trees, buds, birds.

April — Trees, buds, birds (continued). The hen-eggs.

May — Life in Nature; growth.

June — Plants; Observe motion; the Flower Mission.

#### INDUSTRIAL WORK

Motor expression in Reading, Nature Study, Literature and History.

#### Second Year

#### LITERATURE

The stories, poems and songs are introduced at appropriate seasons and on fitting occasions. Great wealth of material found in —

Classics — adapted from Hans Anderson.  
 Myths — found in Cooke's Nature Myths.  
 Poems — by Field — Stevenson — Longfellow.  
 Memory Gems — (selected).

#### PICTURE STUDY

Through the picture the artist is introduced. Tell interesting incidents in life of artist.

St. Anthony of Padua; Madonna of the Lilies; Madonna of the Chair — Raphael; Feeding her Birds — Millet; the Churning — Millet; Two Mothers and their Family; The Helping Hand; Pictures of Dutch Life by Israels, Bloomers, Maria Okes Woodbury.

#### NUMBER

1. Counting.

2. Notation of numbers to 100.

Reading and writing numbers to 100.

Memorize the twenty of the forty-five combinations in addition, the sum of which does not exceed 9.

Subtraction, taught by the Austrian Method, is learned at the same time as addition.

Perception of  $\frac{1}{4}$ ,  $\frac{1}{2}$ ,  $\frac{1}{8}$  with symbols.

Inch, 2 inches, 3 inches to 12 inches.

Much applied work.

#### READING

Pupils should complete at least three Second Readers and much supplementary reading matter.

*Texts:* Aldine Readers; Education Readers, Book II; Progressive Road to Reading, Book II; Stepping Stones to Literature; The Baldwin Readers; the Heath Readers, Book II; Fairy Stories and Fables, The Tree Dwellers,

The Greek Seats

The Director's Studio

Elson Readers, Book II; Hiawatha Primer; Aesop's Fables, Pets and Companions, Classic Stories, Grimm's Fairy Tales, Animal Life, Little Plays for Little People.

**NATURE STUDY**

*September.*

Fall wild flowers, leading up to "Fall Seed Study."  
Legends of National Flowers.  
Trees to be observed.

*October.*

Tree Study, continued.  
Fall Seed Study.  
Study of grass-hopper in home environment.

*November.*

Study of corn in shock.  
Vegetables — How stored for winter.  
Interdependence.

*December.*

Evergreens — Leading up to the Christmas thought.  
Animal Life — Camel.

*March.*

Indications of Spring.  
Special observation.  
Twigs — Pussy willow, lilac, maple, horse-chestnut.

*April.*

Germens of life — animal and vegetable.

Observation —

Animal life — Crayfish, tadpoles, frogs, toads.  
Plant life — Bean, pea, corn.  
Trees — continue observation; historical trees.

*May.*

Special study of horse-chestnut.  
Twigs — buds in last stage of development.

Girls' Room in oldest part of John Sutton Hall

In Music Hall

Comparison of Bean plant and Pea plant grown in school-room.

Relation of animals to soil — example, the Earthworm.

Flowers — brought into school-room and grown in school-room.

### June.

Review "June Questions" of first grade.

Flowers — Weather prophets.

Things for pupils to find out:

What animals crawl?

What animals have no legs?

What animals feed after dark?

What animals have no eyes?

What animals have webbed feet?

What insects buzz, hum, chirp, croak, hiss, hoot, coo?

### LITERATURE

If the trees and the flowers, the clouds and the wind, all tell wonderful stories to the child, he has sources of happiness of which no power can deprive him.

Stories founded upon good literature, which are within the comprehension of the little child, may be drawn from Field, Stevens, Whittier, Longfellow, Bryant, Cooke's Nature Myths, Celia Thaxter, Hans Brinker, K. D. Wiggin, Wiltse, Poulson.

### PICTURE STUDY

Puritan pictures, Boughton; Madonna pictures, Murillo; Child Life pictures, Jessie Wilcox Smith; First Steps, Millet; Animal pictures — Cats, Madam Ronner and Adam; Dogs, Landseer; Sheep, Rosa Bonheur and Anton Mauve; The Strawberry Girl, Reynolds; The Lesson, Bougereau.

### NUMBER

Review work of first year.

Notation and numeration continued by teaching "100" as a new unit.

Writing numbers as far as 1,000.

Continue drill in the use of the forty-five combinations in addition and subtraction.

Children are here taught to carry in addition. Make no attempt to explain the process.

Continue drill by counting by 2's, 3's, 4's, 5's.

Drill in subtraction, Austrian Method.

Notation and numeration of numbers through first three periods.

Perception of any simple work with 1-2, 1-4, 1-8, 1-16, 1-3, 1-9; 1-2, 1-5, 1-10; 1-2, 1-7, 1-14, with symbols, fractions, disks, picture circles on board, etc.

Idea of square inch developed, and simple measurements of surfaces by square-inch tablets.

Men's Basket Ball Squad

Simple idea of volume.  
Liquid measure complete.  
Roman numerals I-XII, inclusive.  
Related facts (12 in a doz.; 24 hours in a day).

#### INDUSTRIAL WORK

Motor expression in Reading, Nature Study, Literature and History.

#### MUSIC

#### PHYSICAL CULTURE

Rhythm work and games.  
Free play.

### Third Year

#### READING

During this year pupils should read at least five Third Readers, together with such supplementary reading as may be correlated with their work in Nature Study, History, Geography and Literature.

At the end of this year pupils should be able to read readily and in pleasing style, matter within their comprehension in thought and language.

*Texts:* Fifty Famous Stories — Baldwin; Old Greek Stories — Baldwin; Third Reader — Carroll and Brooks; Dramatic Reader, Book II. — Stevenson; The Aldine Third Reader; Fairy Stories and Fables — Baldwin.

#### LITERATURE

In the Third Grade we wish to bring a number of mythical stories vividly before the children; therefore, we base the work on Hawthorne's "Wonder Book," using three periods a week during the winter term. The best stories for use in this grade are, The Golden Touch, The Miraculous Pitcher, The Gorgon's Head.

Books to be read to the children: The Children's Hour, Vol. I; The Story Hour — Wiggins; Black Beauty — Sewall; The Little Colonel — Johnston.

In all of this work the children should be encouraged to dramatize, and illustrate on blackboard, or with ink, watercolors or charcoal, the stories they study.

#### NATURE STUDY

##### Fall.

September Flowers; Special study of Clover.  
Migration of Birds; Nuts, Frost.  
Nature's preparation for Winter.

##### Spring.

Birds; Wild Flowers — Special study of the Dandelion.

#### HISTORY

Discovery of America; stories connected with Indiana; stories suitable for national holidays, particularly stories of bravery; community life of early settlers.

#### LANGUAGE

Guide Book to English — Harris and Gilbert, used by teacher only.

Aldine First Language Book, children's text book.

In the fall and spring terms the work in Nature Study and History will furnish a basis for the Language work. During the latter part of November and in December the work will be based upon the Thanksgiving and Christmas holidays.

The work planned for Literature will be the basis for the Language work during the winter term, together with stories from History.

No attempt is to be made to force technique upon the pupils before it is needed, but as difficulties arise and definite instruction is required, such instruction should be given in definite lessons and repeated till the points are made perfectly clear, and right habits started.

#### GEOGRAPHY

First term — One day a week — "The Tree Dwellers"; "The Cave People."

Second term — One day a week — "Seven Little Sisters."

Third term — "Home Geography" — Dodge.

Village of Indiana — name (why so called), location, physical features of the locality, history and growth, organization, productive occupations, commercial occupations, educational and social institutions, government.

A Piano Lesson

A Piano Studio

The sand table is used extensively in connection with the geography of this grade. The homes of the Tree Dwellers, later the Cave People and finally the Normal School with its surroundings are worked out by the children under the teacher's supervision.

#### INDUSTRIAL AND ART WORK

Prang's Course of Study in Art; modeling in plasticine, weaving of rugs, washcloths and dolls' hammocks.

*Material:* — Roving, macrame cord, burlap, stencil cloth.

*Picture Study* — Two each term. Landing of the Pilgrims — Boughton; Arrival of the Shepherds — Lerolle; The First Step — Millet; Children of Charles I — Van Dyke; The Pet Bird — Meyer von Bremen; Piper and Nutcracker — Landseer.

#### ARITHMETIC

Milne's Progressive Arithmetic — First Book, to page 170. The Pupils' Arithmetic — Byrnes, Richman and Roberts.

Books are not in the hands of the pupils till the subject is thoroughly taught, thus using them only for drill.

#### SPELLING AND WRITING

Graded School Speller, Spaulding and Miller. Every written lesson should be a writing lesson.

In every lesson only the best written work is to be accepted from the pupil. Special attention is to be paid to the form, slant and uniform size of the letters, and much practice in board work is to be given. Pen and ink work is begun in this grade. Palmer system begun.

#### Fourth Year

##### READING

The pupils should now be able to read fluently and for the sake of what they read. While continued attention should be paid to the art of reading, the pupils should always realize that they are reading as adults read — to get the thought of the author — and not for the sake of going through the exercise. They should also think about reading to entertain their classmates.

*Texts:* Old Stories of the East — Baldwin; The Louisa Alcott Reader; Silver Burdett Reader — Fourth Book;

Campus Stroll after a Snow Storm

Corner in General Dining Room

Child's Garden of Verses, Selections; Fourth Reader — Carroll and Brooks.

#### LITERATURE

The work during this year is based on "Robin Hood," as arranged by Howard Pyle.

We study Stevenson, Longfellow and Whittier, and memorize the following poems:

The Land of Story Books, My Shadow, Bed in Summer, The Wind — Robert Louis Stevenson.

The Children's Hour, The Village Blacksmith, Paul Revere's Ride — Henry W. Longfellow.

The Corn Song, The Barefoot Boy, In School Days — John G. Whittier.

Stories which should be read to the children:

The Children's Hour — Vol. II

Little Lord Fauntleroy — Burnett.

Two Little Knights of Kentucky — Johnston.

The Giant Scissors — Johnston.

#### NATURE STUDY

##### Fall Term.

Seed Dispersal; Leaves; Fruits — special study of "The Grape"; Trees and Forests.

##### Spring Term.

Seed Germination; Elementary Forestry (Hodge); Insects of the Household; Buds; Lessons on Soil.

#### HISTORY

Story of Cleo the Greek Boy; Institutional Life of the Barbarous Indians; Stories related to national holidays; Stories of Pennsylvania. Pictures should be used

at every step, and models of the people, houses, and ships should be made.

Once a week American History stories are taken up, the children using "Short Stories from American History" as a text book.

#### LANGUAGE

Guide Book to English; pages 70-141.

As in the Third Grade, the Language work is based on the work in Nature Study during the fall and spring terms, and on Literature in the winter term, with History lessons throughout the year.

In the Jap House

General View of Main Dining Room

In this grade the children learn to reproduce stories, both orally and in writing. Much attention is given to correct paragraphing, indentation, punctuation, etc. Letter writing, begun in third grade, is continued.

*Text:* Aldine First Language Book.

#### GEOGRAPHY

##### *First Term.*

The Earth and its People — Winslow. Lessons I-XLVII.

Making of relief maps of the United States.

##### *Second Term.*

"The Earth and its People"— completed.

Corner in Kitchen Showing Cabinet Ovens

##### *Third Term.*

Pennsylvania studied according to General Outline for study of a Continent.

Name — spelling; significance or history.

Position — Indicate on map or globe; relative position; actual position.

General shape — Draw simple freehand outline map.

Size — Comparative; actual; time to cross, etc.

Coast — Extent and general character; indentations and projections.

Surface and soil — Mountains; location; direction; height; effect on country; importance. Plains and valleys (same points). Material needed — sand map, relief map.

Drainage — Lead children to see what characteristics of drainage must be; names and location of principal rivers and their importance to man; special study of a few typical rivers. (Ohio in Pennsylvania.)

Climate — Lead pupils to discover.

Products — Vegetable, animal and mineral. Type study.

Industries — What — Deduced by children from previous knowledge gained; how carried on.

Commerce and means of transportation.

Political divisions.

Cities — Lead children to determine where great centers of population must be, and why; teach names and location of important cities by taking an imaginary trip around the state.

Dish Room—The Niagara Dish Washer at Right Handles 1000 Dishes an Hour—Tea and Coffee Urns at Left

Government — Form; leading officials; capital city. Additional points concerning people — Material condition; education; religion; history.

#### INDUSTRIAL AND ART WORK

Samplers showing chain, blanket, outline, overhanding and cross stitches.

Stenciled mat.

Stenciled and embroidered book-bag.

Piang's Course in Art.

*Picture Study:* Pilgrim Exiles — Boughton; Adoration of Shepherds — Bougereau; Song of the Lark — Breton; Aurora — Guido Reni; Shoeing the Horse — Landseer; Morning in the Highlands — Bonheur.

#### ARITHMETIC

Milne's Progressive Arithmetic — First Book, pages 170 to 288.

Book used for drill only.

#### SPELLING AND WRITING

Graded School Speller — Book III.

Every written lesson a writing lesson.

Palmer Method.

#### HYGIENE

"Good Health" — Gulick Hygiene Series.

#### PHYSICAL CULTURE

Rythmic work, Folk Dances, singing games, corrective gymnastics.

#### MUSIC

### Fifth Year

#### READING AND LITERATURE

Stepping Stones to Literature — Book Four.

The Heath Reader — Book Four.

The Carroll and Brooks Reader — Book Five.

The Blue Bird for Children.

Dramatic Reader for Grammar Grades — Knight; and matter selected from good literature appropriate to the work of the grade.

Supplementary reading based upon History, Geography, Nature Study.

A "Spread" in the "Candy" Kitchen

The School Bakery

Children are encouraged to take books from the school library for home reading.

Stories to be read to the children:

The Story of Siegfried — Baldwin; Norse Stories — Mabie; Little Men — Alcott; Selections from Heart of Oak, Vols. 3, 4, 5.

#### NATURE STUDY

##### Fall Term.

1. Fall Flowers.
2. Garden Work.

Fall exhibit of flowers and vegetables raised in gardens at home; gathering of flower seeds.

3. Insects: Grasshopper and Cricket.

##### Spring Term.

1. Bird Study. "Our Common Birds — Their Life, Work and Natural Enemies."

2. Wild Flowers.

Continue work on flower calendar begun in Primary grades.

Add many flowers to list; continue field excursions.

3. Garden Work; Competitive Flower and Vegetable Culture.

4. Familiar Aquatic Animals; the common toad, its life story and work.

#### HISTORY

The work in History is used as a basis for Language work during the winter term.

Stories of American History.

Tales of Troy — De Garmo.

Stories of Norse Gods and Heroes — Klingensmith.  
English History Stories.

#### LANGUAGE

The material for Language lessons is drawn from the child's environment, and from other subjects of the curriculum — History, Literature, Geography and Nature Study.

Selected Lessons from Cooley; Language Lessons from Literature — Book 1.

#### GEOGRAPHY

1. Short review of North America as a whole. (See outline for Study of Continent.)

The Chefs at Work in Main Kitchen, Where Meals for More Than 1000 Persons are Daily Prepared

A Lesson in Serving

2. United States, first as a whole, then by sections.
3. Canada and Newfoundland.
4. Mexico.
5. Central America.
6. South America.

**INDUSTRIAL WORK**

Knife Work — Kite, paper knife, top, matchesafe, mechanical toys.  
 Indian Baskets — Lazy squaw stitch.

**ART**

Prang's Course of Study in Art — Supplementary Work — Applied Arts Drawing Books.  
 Prang's Industrial Art Series.  
*Picture Study* — Sistine Madonna — Raphael; Return to the Farm — Troyon; The Horse Fair — Rosa Bonheur; At the Watering Trough — Dagnan-Bouveret; Christ in the Temple — Hoffman.

**ARITHMETIC**

Hamilton's Intermediate Arithmetic — Fifth Year.

In the Girls' "Candy" Kitchen

**WRITING**

All written exercises are considered as writing lessons. Copy book is used when needed for drill. Palmer method.

**SPELLING**

Words for written exercises are selected from the various lessons, and should include words misspelled or likely to be misspelled by the children in any written exercise.

Children should learn to divide words into syllables.  
 The use of the dictionary is encouraged.

Lessons taken from Graded School Speller, Spaulding & Miller.

**HYGIENE**

"Emergencies"— Gulick.

**PHYSICAL CULTURE**

Rhythm Work, Folk Dances and games, gymnastics.

**DOMESTIC SCIENCE**

**MUSIC**

**Sixth Year**

**READING AND LITERATURE**

Reading matter selected from standard authors, and, in so far as possible, correlated with the work of the other departments, particularly Nature Study, History and Geography.

Harper's Fourth Reader; The Heath Reader — Book Five; The Story of the Greeks — Guerber; Story of Aeneas — Clark; Selections from Open Sesame, Vols. 1, 2, 3.

Stories to be read to the children:

Ten Boys — Andrews; Heroes of Chivalry — Maitland; Wee Willie Winkie — Kipling; Legends of the Rhine — Guerber; Hans Brinker — Dodge.

**NATURE STUDY**

*Fall Term.*

1. Fall Flowers.  
Study the life history of a few of the familiar flowers growing near the school. The nasturtium, toad flax and scarlet geranium.
2. Garden Work.  
Fall exhibit of flowers and vegetables; gathering of seeds.
3. Insects: The Honey Bee.

*Spring Term.*

1. Bird Study. Continue work of Fifth Year. Special study of the Oriole, Catbird and English Sparrow.  
Bird Day exercises.
2. Wild Flowers. Continue work of Fifth Year.
3. Competitive Flower Culture.
4. Insect Study.  
Insects of the garden; Beneficial Insects. Continue insect study into Fall Term. Aim to complete life histories.

## HISTORY

The Story of the Romans; United States History Stories; Historical Stories of Europe and Asia.

## LANGUAGE

Much of the work in this year does not differ materially from that done in the Fifth Year. The subject matter is drawn from the other subjects of the curriculum — History, Literature, Geography and Nature Study.

Work of the Fifth Year continued.

Give considerable attention to the exact use of the sentence.

Direct and indirect quotations.

See that written work is divided into paragraphs in this as in all grades.

Selected Lessons from Cooley's Language Lessons from Literature — Book I.

## GEOGRAPHY

### 1. *Europe.*

The study of Europe is conducted, as was the study of North America, by "trips" to the places of interest and importance.

The study of the grand division, as a whole, is taken up first and compared with North America as to relief, climate, drainage. (See outline for study of continent.)

After the voyage of steamer from New York to London, each country is visited and special points noted.

### 2. *Asia.*

The study of Asia is conducted as was that of North America and Europe.

A few important topics are studied as centers and types.

A general view of the country is gained by imaginary travels through the continent.

China, Japan and India are studied with greater attention to detail.

## ART

Prang's Course of Study in Art.

Prang's Course in Industrial Arts.

*Picture Study* — St. John and the Lamb — Murillo;

The Angelus — Millet; The Lion of Lucerne; Spring — Anton Mauve; The Windmill — Gabriel.

## INDUSTRIAL WORK

Knife and Tool Work — Pen holder, hat rack, blotter, mechanical toys.

Indian Baskets — Figure eight stitch.

## ARITHMETIC

Hamilton's Intermediate — Sixth Year.

## WRITING

All written exercises are considered as writing lessons.

Copy book is used when needed for drill. Palmer Method.

Making Apple Dumplings

## SPELLING

Words for written exercises should include words misspelled in any written exercise. Lessons taken from Graded School Speller — Spaulding & Miller.

## HYGIENE

"Town and City" — Gulick.

## PHYSICAL CULTURE

Rhythm Work, Folk Dances, games, gymnastics.

## DOMESTIC SCIENCE

## MUSIC

## Seventh Year

### LANGUAGE

#### *Literature.*

The Courtship of Miles Standish; Longfellow's shorter poems; Rip Van Winkle; The Wonder Book; Whittier's shorter poems; The White Seal; Kipling; Lives of the Hunted, Thompson; Biography of a Grizzly, Thompson.

#### *Theme Work.*

Closely correlated with other studies, especially with History, Geography and Literature. Imaginary journeys, dialogues, and personifications; reproduction, character sketches and letter writing.

Eating the Dumplings

Girls' Ward in the Infirmary

*Formal Language Work.*

Review and application of rules taught in preceding grades. Punctuation, paragraphing and capitalization.

*English Grammar.*

The simple sentence and its parts-subject, predicate, complements, word and phrase modifiers. Analysis and diagraming. The parts of speech.

**HISTORY**

History of the United States; The Period of Discovery and Exploration; The Period of Colonization; Colonial Wars; The Revolution; Biography and Literature; Map Drawing; Current History.

**GEOGRAPHY**

*Africa, Australia* — The Islands of the Pacific; The United States; Our Dependencies.

**NATURE STUDY**

Elementary Science Lessons.

**HYGIENE**

"The Body at Work"— Gulick.

**ARITHMETIC**

Hamilton's School Arithmetic, through Percentage.

**ART**

The Work of the Seventh Year as indicated in the Prang Manual. Much Supplementary Work.

*Picture Study* — Japanese Prints; Da Vinci; Dupré; Hofmann.

**INDUSTRIAL WORK**

Woodwork and Raffia — Waste basket, sleeve board, book rack, baskets.

**SPELLING**

Careful attention to spelling in *every subject*.

**MUSIC**

**DOMESTIC SCIENCE**

Girls' Suite in the First Annex

Head Nurse's Room

## Eighth Year

### LANGUAGE

#### Literature.

Evangeline; Sharp Eyes and Other Papers; Biographical Stories; The Vision of Sir Launfal; Wild Animals I Have Known; Shorter Poems from best authors; Snow Bound; The Christmas Carol.

#### Theme Work.

Based on Literature, History and Geography. Original composition. Letter-writing.

Boys' Room in Dormitory

### English Grammar.

Complete Maxwell's English Grammar. Analysis, parsing, diagraming.

### HISTORY

History of the United States.

The Constitution.

Territorial Growth — increase in population and wealth.

#### Inventions.

The Cotton Gin; The Steamboat; Locomotive; Construction of railroads; Ocean Steamships; Electrical inventions.

The War of 1812.

The Mexican War.

The Slavery Question. Its rise and growth; effect upon the country.

The Civil War; cause, duration, incidents, results.

Reconstruction period.

Discovery of gold, silver, petroleum and natural gas.

The Spanish-American War.

Immigration.

*Biography* — Henry Clay, Daniel Webster, Lincoln, Grant, Sherman, Sheridan, Lee.

Map Drawing.

Civics and Current History. Daily papers, leading periodicals.

### GEOGRAPHY

Europe — Asia.

Much supplementary reading.

Map Work — composition.

Geography generalized.

*Mathematical.*

The earth as a sphere.  
Form, size, movements, effects; relation to the sun;  
representation; latitude, longitude, zones.

*Physical.*

Land and water forms; Atmosphere and climate;  
Plant and animal life; Races of Mankind.

*Industrial and Commercial.*

Leading industries of the World; Physical conditions  
upon which trade depends; Commodities of ex-  
change; Leading seaports, lake ports and river  
ports of the world; Great railroad centers; Rail-  
road and steamship routes.

**ARITHMETIC**

Hamilton's School Arithmetic.

**ART**

A course of study in Art — Prang Educational Com-  
pany.  
Much supplementary work.

*Picture Study* — Reynolds; Corot.

**HYGIENE**

"Control of Body and Mind" — Gulick.

**INDUSTRIAL WORK**

A continuation of the work of the Seventh Year.  
Model of an aeroplane.

**SPELLING**

Graded School Speller — Spaulding & Miller.

**Ninth Year**

**ENGLISH**

Grammar; Literature; Composition.

**ARITHMETIC**

Hamilton's and Milne's Arithmetics.

Complete the subject and review thoroughly the work  
of the preceding grades.

**ALGEBRA**

Bailey's High School Algebra.  
Wentworth's Algebra.

**HISTORY**

Tappan's English History.

**LATIN**

"Latin Lessons" — Smith.

**CIVICS**

"The Community and the Citizen" — Dunn.

**MUSIC — ART**

**MANUAL TRAINING — DOMESTIC SCIENCE**

Credit is given in the Normal Department for much of  
the work completed in the Ninth Year.

**Music in the Training School**

The music of the Training School is under the direct  
supervision of the Director of the Conservatory of Music,  
and is taught by members of the Supervisor's class. Mem-  
bers of the Senior class observe the work, and in turn are  
required to teach.

The course of study is carefully prepared and the work  
of the grades conducted after the best known methods.

Teachers are carefully trained in all that is required  
of an expert supervisor, and the music of the Training  
School is a pronounced feature.

A Christmas Scene

# ALUMNI REGISTRY

Following are the names of the graduates of this school arranged in alphabetical order. This facilitates the finding of any name belonging in the list. Opposite the name, the year of graduation is given, and as the Class Directory follows this list, one can turn at once to the person's class, obtain his address, and the list of his classmates.

Adair, Jennie M. . . . .	1885	Anderson, Alexander	1911	Balsinger, W. Ernest	1900	Bella, Ada . . . . .	1913

# CLASS DIRECTORY

## Officers of the Society of the Alumni

ELBIE CREPS, CLASS of '04	President
JAMES B. SANSOM, CLASS of '94	Vice-President
SARA E. BRUCE, CLASS of '04	Secretary
STELLA L. HASSINGER, CLASS of '04	Treasurer

Note -- So far as the addresses of our Alumni were known, or could be obtained, they are given. Our friends will confer a favor by furnishing any information by means of which our directory may be made more complete in the future catalogues. In almost all cases the home address has been given.

We often have calls for teachers that we are unable to supply. We request our Alumni who are desirous of obtaining better positions to keep us informed of their addresses and desires.

 Davis, Helen Louise  
 Davis, Joseph Robert  
 Dunmore, Violet  
 Eicher, Margaret E.  
 Ellenberger, Harold  
 Frampton, Charles C.

### Third Grade

Adams, Irene  
 Cardamone, Antonio  
 Conrath, Harry  
 Cook, Robert  
 Correll, Anna Mae  
 Dennis, Marion  
 Fleming, Eugene

**Model School Registry — Continued**

Frederick, Ruth F.  
Fulton, Wilma R.  
Gates, Leila June  
Getty, Mildred  
Gibson, Gordon  
Hawthurst, Anna M.  
Layton, Herbert L.  
Martin, John  
McComb, Burt in  
McComb, Donald  
McHenry, Jas in

Miller, Harlon V.  
Morris, Paul Karnea  
Overbeck, Harold  
Pifer, Phoebe May  
Pizzica, Rose  
Prothero, Agnes Belone  
Richards, Robert K.  
Sanford, Ruth  
Shaffer, Oren  
Shettler, Frederick  
Stewart, James M.

Wilhelm, Retha  
Wyatt, Lucille  
Zeigler, Charlotte C.

**First Grade**

Armstrong, Helen E.  
Banks, Roseanne  
Clark, Clair  
Correll, Frances A.  
Doney, Frank J.  
Punniire, Nellie

Edwards, Kathleen  
Fisher, Catherine H.  
Fisher, Juliet E.  
Frampton, James M.  
Fulmer, Vera Heugst  
Fulmer, Verna Graham  
Fulton, Harold W.  
Getty, Carl  
Greenlee, Erma Ruth  
Hile, Maurice F., Jr.  
Hileman, H. Gynedale

Longwell, Donald  
Malcolm, Winona  
Martino, Emma  
Martino, Joseph  
McFinchey, Ida  
McGaughey, Wilda M.  
McGregor, Paul  
Miller, George A.  
Monroe, Adie Kyle  
Pifer, Velma Loretta  
Pizzica, Dora  
Prothero, Jean E.

Ray, Olive  
Reisinger, Frederick  
Rezzolla, Evelyn  
Roadarniel, Ethel  
Ross, David Biddle  
Shaffer, Arthur  
Simons, Delos A.  
Snyder, Frances May  
Stewart, Katherine  
Swanger, Christine  
Van Gorder, Wilmont  
Wakefield, Orville

**Summary of Enrollment**

	<b>POST GRADUATES</b>				<b>SUB-FRESHMEN</b>
